

INDEPENDENT AUDITORS' REPORT

To the Participants and Trustees of
Western Conference of Teamsters Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Western Conference of Teamsters Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the

reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Western Conference of Teamsters Pension Plan's net assets available for benefits as of December 31, 2013, and changes therein for the year then ended and its financial status as of December 31, 2012, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITORS' REPORT ON ADDITIONAL INFORMATION

To the Participants and Trustees of
Western Conference of Teamsters Pension Plan

We have audited the financial statements of Western Conference of Teamsters Pension Plan (the Plan) for the years ended December 31, 2013 and 2012, and have issued our report thereon dated September 10, 2014, which contained an unmodified opinion on those financial statements. Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying information included on page 45, Schedule G - Financial Transaction Schedules (IRS Form 5500) and Schedule H - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is additional information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION I – ACTUARIAL ASSUMPTIONS AND METHODS

1. Actuarial Assumptions

a. Investment Earnings Assumptions

- i. Fixed Dollar Account: The assumed investment return for these assets, which is used to value the pension benefits¹ for Pensioners and Beneficiaries whose benefits commenced on or before August 1, 1982 (as identified by Prudential Investments), is determined by a schedule of rates that varies by calendar year, starting at 6.7% in 2013 and decreasing to 6.5% in 2015 and thereafter.
- ii. 1982/1984 Annuity Account: The assumed rate of return for these assets, which is used to value the pension benefits¹ for Pensioners and Beneficiaries whose benefits commenced from September, 1982 through December, 1984 (as identified by Prudential Investments), is 3.55%.
- iii. Strategic Bond Account (SBA): The assumed rate of return for these assets is 4.99%. This assumption is used to value 85.2% of the pension benefits¹ related to service through December 31, 1985, based on December 31, 1984 Plan provisions and not covered by the prior asset dedications.
- iv. Remaining Assets/Benefits: The assumed rate of investment return which is used to value all benefits expected to be paid out of remaining assets and future contributions is 7.0%.

EIN/PN: 91-6145047/001

Schedule MB, Line 6, Statement of Actuarial Assumptions/Methods.

¹Single sum death benefits are not valued using the investment earnings assumptions described above. Instead, the “Remaining Assets” assumption is used.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION I – ACTUARIAL ASSUMPTIONS AND METHODS

b. Mortality Rates

The assumed mortality rates for non-retired participants and for age retirees and beneficiaries are based on various RP-2000 mortality tables and adjustment factors - modified and projected (using Scale AA) to reflect recent Plan experience. Special mortality tables, reflecting Plan experience, are used for disabled pensioners.

Examples of mortality rates used are shown in the table below:

Annual Probability of Death						
Age Last Birthday	Non-Retired Participants		Age Retirees & Beneficiaries		Disabled Retirees	
	Male	Female	Male	Female	Male	Female
25	0.0004	0.0002	0.0004	0.0002	0.0244	0.0176
40	0.0014	0.0009	0.0014	0.0009	0.0244	0.0176

85	0.1133	0.0824	0.1086	0.0797	0.1362	0.0981

c. Provision for Expenses

\$85 million of employer contributions per year.

d. Age Retirement Rates

Age retirement rates apply only to retirement eligible participants.

We use five retirement rate tables. Their values are displayed in the three columns of table (1), and the fourth and fifth columns of table (2), below. (Note that the first two columns of table (1), and the first two columns of table (2), represent the same two tables).

For a given participant in a PEER unit, two or more of these tables may be accessed during a single run, with the lower rates applying until the participant is projected to attain the required number of age plus service points, (80, 82, or 84).

62	0.0077	0.0102

g. Benefit Projection Assumptions

Although this assumption is the same as in our prior report, under our current Unit Credit actuarial cost method this assumption is relevant only for 2012.

Projected benefit amounts for 2013 were calculated assuming that: (a) Active Non-Seasonal employees work an average of 1800 hours per year; (b) Active Seasonal employees work an average of 600 hours per year; and (c) contribution rates would continue at the December 31, 2012 levels. A non-retired participant was considered Active as of January 1, 2013 if he or she earned at least 250 covered hours during 2012, or at least 1 covered hour in 2012 and at least 250 covered hours in 2011.

h. Expected Annual Employer Contributions

The annual employer contributions expected during 2013 have been assumed to be \$1.375 billion. This amount is used to determine the expected amortization period for the UAL.

i. Sample Valuation Data

We have relied on data supplied by Prudential Investments and Northwest Administrators. The actuarial values for non-retired participants are based on a sample of the employees covered under the Plan, as described in Section H. The actuarial values for records with valid data are adjusted for sampling and incomplete data, and the results are assumed to represent the values of the entire covered group. We also adjusted the vested inactive data to remove any participants who were over age 74 on the valuation date. We assume that any such participants do not have and will not create any liability for the Plan.

EIN/PN: 91-6145047/001
Schedule MB, Line 6, Statement of Actuarial Assumptions/Methods.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION I – ACTUARIAL ASSUMPTIONS AND METHODS

j. Past Employment

Total past employment (continuous past employment plus special past employment) for each employee was calculated as the number of years from year of union membership until year of coverage, but not less than the known continuous past employment for the employee.

k. Survivor Benefit Costs

The family composition of covered employees was assumed to be similar to that tabulated in the 15th Actuarial Valuation published by the Railroad Retirement Board. This assumption was used to estimate the probability that an employee will be survived by a beneficiary eligible for a survivor benefit and to establish the probable duration of the benefit.

l. Expected Distribution of New Active Participants

Based on the prior year's experience, a number of covered employees on the valuation date who had not met the Plan's participation requirements are expected to become participants during the current year. The assumed age distribution at first participation for these expected new participants is illustrated in Table 2013-4.

2. Actuarial Methods

a. Actuarial Value of Assets

The Prudential Investments Fixed Dollar Account (FDA), in general, was valued at book value. However, to the extent that cash flows from the FDA are not sufficient to provide the projected FDA benefits, certain bonds valued at amortized cost were assigned to the FDA so that all projected FDA benefits were supported by dedicated assets. When book value is referenced, such value is equal to amounts deposited, plus interest credited less amounts disbursed. The 1982/1984 Annuity Account and the SBA were valued on an amortized cost basis, running from cost at purchase to par value at maturity or earliest call date.

The remaining assets were valued using a smoothing procedure under which the 2008 market value is recognized at the rate of 10% per year for ten years. All other market value gains and losses are recognized at the rate of 20% per year over five years. The actuarial value of the remaining assets may not be greater than 120% or less than 80% of the market value.

EIN/PN: 91-6145047/001

Schedule MB, Line 6, Statement of Actuarial Assumptions/Methods.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION I – ACTUARIAL ASSUMPTIONS AND METHODS

b. Actuarial Cost Method

The Unit Credit actuarial cost method was used for this valuation. Under this method, the Actuarial Liability is the Accrued Benefit Liability for all participants included on the valuation date. The Normal Cost is: (i.) the expected increase in Accrued Benefit Liability for these participants resulting from benefits earned during the current year, plus (ii.) the expected increase in Accrued Benefit Liabilities resulting from new participants who are covered employees on the valuation date.

SECTION E – REVISIONS OF ACTUARIAL COST METHOD, ASSUMPTIONS, AND PLAN PROVISIONS

1. Change in Actuarial Cost Method

There was no change in actuarial cost method effective January 1, 2013.

2. Changes in Actuarial Assumptions

a. Investment Earnings – Dedicated Assets and Liabilities

The investment earnings rate assumptions used to value Plan liabilities have been revised for dedicated assets in the second and third asset categories listed below. As in prior valuations, the revisions to the dedicated account assumptions were made solely to reflect changes in the relationships between the amortized cost value of these accounts and the projected cash flow generated by such assets.

- Fixed Dollar Account: The assumed annual rates of return are the same as those assumed in the January 1, 2012 valuation and grade down from 6.7% in 2013 to 6.5% in 2015 and thereafter.
- 1982/1984 Annuity Account: The assumed annual rate of return has been changed to a level 3.55% from the previous valuation assumption of 4.20%.
- Strategic Bond Account (SBA): The assumed annual rate of return has been changed to a level 4.99% from the previous valuation assumption of 5.43%.
- Remaining Assets/Benefits: The annual rate of return assumed for benefits not covered by the dedicated accounts, and for the normal cost calculations, remains at 7.0%.
- Current Liability: These rates are prescribed by Internal Revenue Code Section 431(c)(6), and are likely to change every year to reflect current market short term rates. The rate for this year is 3.78%, and was 4.29% last year.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION E – REVISIONS OF ACTUARIAL COST METHOD, ASSUMPTIONS, AND PLAN PROVISIONS

- b. Expenses: Assumed annual expenses have remained unchanged at \$85 million, payable monthly.
- c. Valuation Mortality Rates: Valuation mortality tables have remained unchanged since the prior actuarial valuation.
- d. Current Liability Mortality Rates: This table of rates is prescribed by Internal Revenue Code Section 431(c)(6), and is likely to change every year.

3. Changes in Plan Provisions, Contribution Rates and PEER Coverage

The actuarial liabilities for the Plan are determined based on Plan provisions, contribution rates, PEER levels, and status of the participants on the effective date of the valuation. There were no plan changes during 2012 that would have a material impact on the actuarial liabilities. Contribution rates generally have been increasing, contributing to increases in the actuarial liabilities. PEER levels have been fairly constant for the last several years, but any changes do contribute to changes in the actuarial liabilities.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION H – PARTICIPANT DATA

The sources of WCT Plan participant data for our actuarial calculations are: (a) extracts from Prudential Investments' Annuitant Benefit Consolidation (ABC) System file, (b) extracts from the T2 Participant Data File (PDF) maintained by Northwest Administrators and Prudential Investments, and (c) extracts from the Western States Food database.

The following paragraphs describe how the data were prepared for valuation purposes and present statistical characteristics of the data base.

1. Data Base for Active and Vested Inactive Participants

Northwest Administrators sent us a December 31, 2012 valuation data file that included T2 extract records for all vested participants, a 5% sub-file of non-vested participants (Social Security numbers ending in 00, 05, 10, 15, or 20), and all claims and deaths for the last five years.

From this file containing 400,170 records, we selected the 5% sample valuation file for all active participants, both vested and non-vested, and for all vested inactive participants. A participant was considered Active as of January 1, 2013 if he or she was not included on the ABC file as retired as of the valuation date, and if he/she earned at least 250 covered hours during 2012, or earned at least 1 covered hour in 2012 and at least 250 covered hours in 2011.

9,086 Non-Seasonal Active 5% sample records representing 181,720 participants were included in the valuation. For this purpose, Active participant records with non-seasonal industry codes or with 1,000 or more covered hours in each of the last two years were considered Non-Seasonal.

618 Seasonal Active 5% sample records representing 12,360 participants were included in the valuation. Active participants with a seasonal industry code and less than 1,000 covered hours in one or both of the last two years were considered Seasonal.

8,427 Vested Inactive 5% sample records representing 168,540 participants were included in the valuation. In addition, 24 sample records for participants vested only under the WSF Plan (representing 480 participants) were valued separately and incorporated in the liability bringing the total number of vested terms valued to 169,020.

382,039 T2 extract records were not used for the valuation. These records primarily represent non-5% sample participant records, pre-valuation date claims, and non-vested inactives.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION H – PARTICIPANT DATA

- Based on the data for continuing non-seasonal Active participants in the sample who worked 500 or more hours in each of the last two years, the Plan's hourly contribution rates for "continuing" Non-Seasonals increased an average of 5.4%. When the data are analyzed by broad contribution rate groupings, the average increase for groups with hourly rates \$2.00 and below was 2.7% while the average increase was 7.1% for rate groups between \$2.00 and \$4.00, and 6.1% for rate groups over \$4.00. The higher contribution rate groups generally have longer service and older age characteristics than the lower rate groups, and they are becoming a larger portion of the total population. Table 2013-2 presents substantial statistical data on rate increases during the most recent four Plan years.

3. Comparison of Sample Data Characteristics with Full Population Data Characteristics

Each year, we receive three Employee Census Reports from the Administrative Office based on the T2 Participant Data File (PDF). The first report contains information for the full population of Plan participants and the second and third contain corresponding information for the 2% and 5% samples of the full population. A comparison of key information from the full population and 5% reports is used to corroborate our assumption that the sample records adequately represent the total population (see Table 2013-1).

4. Procedures to Account for Data with Missing or Invalid Birthdates or Sex Codes

Records with missing or invalid birthdates were accounted for by prorating the present values generated by the records with valid birthdates, based on the number of career hours in the records with missing or invalid birthdates. The prorating is done separately for employee groups categorized by valuation industry code (Non-Seasonal or Seasonal), valuation status (Active or Vested Inactive), sex code and vesting status. This straightforward approach is adequate because of the very small liability represented by the relatively few participants in the data sample whose records are lacking valid birthdates.

Records with missing sex codes were assumed to represent males in the Non-Seasonal group and females in the Seasonal group. We have concluded that this assumption is reasonable based on the population characteristics illustrated in this section.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION J – SUMMARY OF PLAN PROVISIONS EFFECTIVE JANUARY 1, 2013

1. Active Participation

Non-Seasonal employees for whom contributions are required to be made to the Trust under the terms of a pension agreement become “Active Participants” on the day on which they first accumulate 750 covered hours in the current and immediately preceding calendar years. Seasonal employees become “Active Participants” if they satisfy one-half of the covered hour requirement of Non-Seasonal employees.

2. Monthly Pension at Normal Retirement

The monthly pension earned for service prior to 1987 is determined based on the 1986 Plan provisions as outlined in the January 1, 1986 Actuarial Report. The final five-year average contribution rate used for this determination recognizes contribution rates applicable to all 500 hour years through 1991.

For service after 1986, monthly pension benefits are earned as follows:

Calendar Year	Contribution Percentage	
	First 20 Years	After 20 Years
1987-1991	2.00%	2.65%
1992-1996	2.30%	3.05%
1997-1999	2.46%	3.26%
2000-2002	2.70%	3.58%
1/2003-6/2003	2.20%	2.92%
7/2003-2006	1.20%	1.20%
2007	1.65%	1.65%
2008	2.00%	2.65%
2009+	1.20%	1.20%

3. Past Service Credits

A participant is granted credit for the number of years and months of specified types of unbroken employment rendered prior to his or her first covered hour, subject to limits specified in the Plan.

EIN/PN: 91-6145047/001

Schedule MB, Line 6, Summary of Plan Provisions.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION J – SUMMARY OF PLAN PROVISIONS EFFECTIVE JANUARY 1, 2013

4. Vesting Service

A Plan member earns a vesting service year for each year after 1975 during which he or she is credited with at least 500 covered hours (250 covered hours for Seasonal Plan members). For service before 1976, a Plan member is credited with a vesting service year for each year of continuous coverage under the Plan.

5. Normal Retirement Age

The later of age 65 or an Active participant's age on the second anniversary of his or her first covered hour.

6. Normal Pension Form

The normal form of pension for unmarried participants is a Life Only Pension. In general, married participants who do not elect otherwise receive a reduced Employee and Spouse Pension. This reduced amount is an "actuarial equivalent" of the Life Only Pension. Participants who retired under the Employee and Spouse Pension Option will have their pension restored to the amount payable under the Normal Form if the spouse dies first. In the event that the participant dies first, the amount of spouse pension is 66 2/3% of the retiree's pension for those who retired after 1991 with recent coverage; otherwise the amount of spouse pension is 50% of the retiree's pension. In both instances, the actuarial reduction factor for the Employee and Spouse Pension amount is calculated as though the spouse pension benefit would be 50% of the reduced Employee and Spouse Pension.

7. Other Pension Forms

An Optional Employee and Spouse Pension providing a 75% spouse pension is available. Participants retiring under age 65 may elect a Benefit Adjustment Option with or without the regular or Optional Employee and Spouse Pension.

8. Early Retirement Eligibility Date

In general, this date is the first day of the month coincident with or immediately following the later of the participant's 55th birthday or the date the individual becomes a vested participant. However, a participant with recent coverage may retire at any age if he or she meets the Rule of 84 (or Rule of 82 or Rule of 80) under the Program for Enhanced Early Retirement (PEER program); that is, the sum of his or her attained age plus years of contributory service is equal to or greater than 84 (or 82 or 80).

EIN/PN: 91-6145047/001

Schedule MB, Line 6, Summary of Plan Provisions.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION J – SUMMARY OF PLAN PROVISIONS EFFECTIVE JANUARY 1, 2013

9. Monthly Pension at Early Retirement for a Participant with Recent Coverage

If a participant meets the Rule of 84 and has recent coverage, the monthly pension benefit is reduced by the sum of 0.45% for each of the first 60 months that the early retirement date precedes his or her 62nd birthday plus 0.33% for each month that the early retirement date precedes his or her 57th birthday.

If a participant has recent coverage but does not meet the Rule of 84, his or her monthly pension benefit is reduced by the sum of 0.60% for each of the first 60 months that the early retirement date precedes his or her 62nd birthday plus 0.40% for each month that the early retirement date precedes his or her 57th birthday.

10. Monthly Pension at Early Retirement for a Participant with Current PEER Coverage

If a participant meets the Rule of 84 (or Rule of 82 or Rule of 80), is a member of a bargaining unit which has negotiated PEER 84 (or PEER 82 or PEER 80) contribution surcharges, and has current PEER coverage, the early retirement benefit equals 100% of the earned pension benefits. A participant has current PEER coverage at his or her retirement effective date if the applicable PEER contributions have been paid for at least 1,000 covered hours in the 24-month period immediately preceding his or her retirement effective date.

Note: If a participant is in a category of early retirement where benefits are subsidized (as described in paragraph 1 of Item 9 or in Item 10) and accumulates 25 years of service under the Plan while so covered, then his or her subsidized early retirement benefits are “locked-in” and cannot be forfeited.

11. Disability Benefit

Upon a vested participant’s total and permanent disability before age 65, the monthly benefit is the greater of (a) 85% of the earned monthly pension benefit or (b) the early retirement pension otherwise payable, provided the vested participant has met the specified recent coverage requirement on the disability onset date.

12. Vested Benefit Upon Termination of Employment

Upon termination of employment, a participant is vested in his or her accrued pension, based on past and future service credits, if he or she has completed at least 5 years of vesting service, one of which was completed during or after 1991.

EIN/PN: 91-6145047/001

Schedule MB, Line 6, Summary of Plan Provisions.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION J – SUMMARY OF PLAN PROVISIONS EFFECTIVE JANUARY 1, 2013

A terminated vested participant may elect early commencement of the earned retirement benefit at any time on or after the Early Retirement Eligibility Date. If the participant does not have recent coverage and has not “locked-in” rights to unreduced pension benefits by having completed 25 years of Plan service before termination, the benefit is reduced by the sum of 0.6% per month for each of the first 60 months that the early retirement date precedes the participant’s 65th birthday plus 0.4% per month for each month that such early retirement date precedes the participant’s 60th birthday.

Vested participants who are not covered by the current Plan provisions may be subject to additional limitations on their benefits.

13. Extra Check

An annual “Extra Check” is payable to: (i.) pre-1985 retirees in the amount of \$540 and to (ii.) their eligible survivors in the amount of \$450.

14. Death Benefits

Upon the death of a participant or pensioner who has met the specified recent coverage requirement, a temporary monthly pension is payable to the surviving children under conditions specified in the Plan.

A pre-retirement benefit to the surviving spouse is payable upon the death of a vested participant. If a married participant had recent coverage at the time of death, the spouse receives an immediate benefit based on the participant’s earned benefit. The earned benefit is reduced to reflect early retirement, as specified in the Plan, and the appropriate Employee and Spouse Pension factor. $66 \frac{2}{3}\%$ of the resulting amount is then payable immediately to the spouse. If the participant does not have recent coverage, the benefit is calculated as described above, but a 50% factor is applied in lieu of the $66 \frac{2}{3}\%$ factor, and, if the participant was not eligible to retire on the date of death, commencement of the pension is deferred until the time the participant would have been first eligible to retire.

A single sum death benefit equal to 50% of contributions, subject to a maximum of \$10,000, is payable upon the death of an Active or Terminated participant who has completed at least 5 years of vesting service. In addition, for unmarried vested participants who satisfy the recent coverage requirements and would otherwise be eligible to retire, a death benefit of 48 times the participant’s accrued pension, reduced to reflect early retirement as specified in the Plan, is payable as a lump sum amount.

EIN/PN: 91-6145047/001

Schedule MB, Line 6, Summary of Plan Provisions.

WESTERN CONFERENCE OF TEAMSTERS PENSION PLAN

SECTION J – SUMMARY OF PLAN PROVISIONS EFFECTIVE JANUARY 1, 2013

Upon the death of a pensioner with a retirement date before January 1, 1992, a single sum benefit of 12 times the monthly normal form pension (Life Only annuity), subject to a maximum of \$10,000 is payable. Beginning with retirements in 1992, beneficiaries of retirees with recent coverage who elect a Life Only or Benefit Adjustment Option (without the Spouse Pension) receive a 4-Year Certain death benefit payment equal to 48 times the pensioner's Life Only benefit minus the total monthly payments already received by the pensioner.

If a pensioner retires after January 1, 1992, he or she may elect an Optional Lump Sum Death Benefit equal to 12 times the monthly normal form pension (Life Only annuity). The Optional Lump Sum Death Benefit is paid for by reducing the pensioner's monthly payment.

15. Transition Provisions

Certain minimum benefits are provided to participants who were covered by prior versions of the Plan.

INDEPENDENT AUDITORS' REPORT

To the Participants and Trustees of
Western Conference of Teamsters Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Western Conference of Teamsters Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the

reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Western Conference of Teamsters Pension Plan's net assets available for benefits as of December 31, 2013, and changes therein for the year then ended and its financial status as of December 31, 2012, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation, Transactions and Income Recognition -

General - Investments are carried at fair value, which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan’s assumptions about inputs that market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities’ own judgments and estimations, or some other pricing method using unobservable inputs.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Inputs and Valuation Methods - In determining fair value, FASB ASC 820 allows various valuation approaches. The specific methods used for each of the Plan's investment classes are presented below.

U.S. Government and Government Agency obligations: The fair value of U.S. Government and Government Agency obligations is generally based on quoted market prices in active markets (Level 1). When quoted prices are not available, valuation is determined using a market-based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices (Level 2).

Corporate and foreign debt securities: The fair value of corporate and foreign debt securities is generally determined based on a model that uses inputs such as interest-rate yield curves, which are similar to the valued obligations in terms of issuer, maturity and seniority (Level 2). The fair value of illiquid corporate debt securities is determined based on internally developed inputs (Level 3).

Equity securities: The fair value of common stock is generally based on quoted market prices in active markets (Level 1).

Insurance company contracts: The insurance company contracts consist of investments of various types, including U.S. Government and Government Agency obligations, corporate debt securities, cash and cash equivalents, real estate, pooled separate accounts, mortgages and unallocated insurance contracts. The insurance company contract investments in U.S. Government and Government Agency obligations and corporate debt securities are valued as described above.

Unallocated insurance contracts: Investments in the Prudential Fixed Dollar Account are stated at the principal amount invested plus income earned (Level 2).

Pooled separate accounts (insurance company contracts): Investments in the Temporary Investment Account are stated at the principal amount invested plus income earned (Level 2).

Investments in the Union Mortgage Account, which is composed primarily of mortgage loans on income-producing commercial properties, are valued at estimated fair value using Prudential's Asset Liability Pricing System (ALPS). The estimated fair value of the mortgages may be adjusted for such factors as contractual prepayment options or losses in the fair value of the underlying real estate. The credit quality ratings are reviewed annually and are monitored by the portfolio manager throughout the year for events that could affect the quality of the mortgages (Level 2).

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The underlying investments in PRISA and PRISA II real estate accounts are valued at estimated fair value based upon property appraisals prepared by independent real estate appraisers. The investment debt on acquired real estate is reported at estimated fair value, which is determined using the discounted cash flow method (Level 3).

Common/commingled trusts: Common/commingled trusts hold investments in domestic and foreign equity securities, debt securities and units in other affiliated and unaffiliated commingled trusts. The underlying assets may be valued based on quoted market prices, independent pricing services or by dealers making a market for certain securities. The unit values of the common/commingled trusts are determined by dividing the underlying net asset values (assets less liabilities) by the outstanding number of units (Level 2).

Real estate (insurance company contracts): Investments in the Western Conference of Teamsters Separate Account (WCOT) are valued at the estimated fair value based upon property appraisals prepared by independent real estate appraisers. The investment debt on acquired real estate is reported at estimated fair value, which is determined using the discounted cash flow method (Level 3).

Real estate (other): Investments in real estate accounts are valued at estimated fair value based on appraisal reports prepared by independent real estate appraisers and/or the account's investment manager (Level 3).

Limited partnerships (private equity) and other private equity: Limited partnerships and other private equity funds are valued using net asset value, which approximates fair value. Net asset value of these funds is based on the underlying assets' fair values, which include a combination of quoted market prices and estimated fair values determined by the general partners and managers of the other private equity funds using the most recent net asset values or capital account information available, independent appraisals, significant judgments and various mathematical models and methodologies (Level 3).

103-12 investment entities: 103-12 investment entities are valued based on the net asset values and have been determined based on the unit values of the funds, which are determined by dividing the funds' net assets at fair value by the units outstanding at the valuation date (Level 2).

Mutual fund: The fair value of the mutual fund is generally based on quoted prices in active markets (Level 1).

Cash and cash equivalents: The value of temporary cash held in short-term investment funds is based on quoted prices for similar assets in active markets (Level 2). Temporary cash held in banks is valued at cost, which approximates fair value (Level 1).

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Collateral held for securities on loan: Cash collateral for securities on loan with the custodial bank has been reinvested in various types of debt securities for which values are determined using a model-based approach. Cash collateral for securities on loan through Prudential have been reinvested in the Prudential Core Investments Fund - Short-Term Bond Account (Level 2).

Futures contracts and options: Futures contracts and options that are publicly traded in active markets are valued at closing prices as of the last business day of the year (Level 1). Other futures contracts and options are valued at their fair value, as determined in good faith in accordance with the procedures adopted by the investment manager. Such procedures include obtaining quotes from pricing agents and utilizing pricing models based on available market data (Level 2).

Swap agreements: Swap agreements are recorded on the contract date. Amounts payable or receivable under the swap agreements are included on a net basis as a receivable from or payable to the swap counterparty on the statements of net assets available for benefits. Because no market quotations are readily available, swap agreements are valued at estimated fair value, as determined by the investment manager, utilizing pricing models based on available market data (Level 2).

Valuation Methods, Consistency - The valuation techniques used in the accompanying financial statements have been consistently applied.

Transactions and Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions Receivable - Employer contributions due and not paid prior to the year-end are recorded as employer contributions receivable. Allowance for uncollectible accounts is considered unnecessary and is not provided. Contributions due as a result of payroll audits have been recorded net of an allowance equal to the amount due because collectability is uncertain. Therefore, delinquent contributions are recorded when received.

Withdrawal Contributions Income and Receivable - Withdrawal contributions income is recognized when the withdrawal liability amount has been assessed and is included in employer contributions. An allowance equal to the total amount assessed has been recorded because collectability is uncertain.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that participants have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present active participants or their beneficiaries.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Equipment and Other Fixed Assets - The Plan's computer equipment and other fixed assets are recorded at cost. Furniture and computer equipment are depreciated using the straight-line method. Internally developed software is amortized using the straight-line method. Enhancements to internally developed software that result in additional functionality are capitalized.

Depreciation and amortization is calculated using the following estimated useful lives:

Furniture	7 years
Computer equipment	3 years
Internally developed software	10 years

Depreciation and amortization expense for the years ended December 31, 2013 and 2012, was \$3,367,803 and \$3,277,828, respectively.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties - The actuarial present value of accumulated Plan benefits is calculated based on certain assumptions pertaining to interest rates, participant demographics and other assumptions, all of which are subject to change. Due to the inherent uncertainty of the assumption process, it is at least reasonably possible that changes in these assumptions in the near term would be material to the disclosure to the financial statements of the actuarial present value of accumulated Plan benefits.

The Plan invests in equity securities, corporate debt securities, mortgages, commodities, real estate, futures, swaps, limited partnerships and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty with respect to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Reclassifications - Certain prior-year amounts have been reclassified based on updated information received from the investment manager pertaining to one security that was classified as a limited partnership and is now classified as other private equity.

NOTE 2. DESCRIPTION OF THE PLAN

The following description of the Western Conference of Teamsters Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for complete information.

General - The Plan was established pursuant to the Western Conference of Teamsters Pension Agreement and Declaration of Trust dated April 26, 1955, to provide and maintain retirement, death and termination benefits for employees in collective bargaining units represented by local unions affiliated with the Western Conference of Teamsters. The Plan defines the retirement, death and termination benefits to be provided; the conditions of eligibility for those benefits; the terms of payment; and other necessary or appropriate items. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Board of Trustees - The Plan is administered by a Board of Trustees (the Trustees) composed of 13 union trustees and 13 employer trustees. The Trustees are selected from the various geographic areas served by the Plan.

Plan Administration - The Trustees have engaged a third-party administrator to perform administrative and managerial functions for the Plan and to implement the policies of the Trustees.

The Trustees have also contracted with the third-party administrator for services relating to the testing of contributing employers' records. The purpose of the testing is to determine that the proper amount of contributions has been remitted to the Plan. The fees for these services are included in the Administrative Offices expense.

Insurance Company - The Plan is party to two group annuity contracts with Prudential Insurance Company of America (Prudential): one is a participating annuity contract (GA-8216); the other is an investment-only contract (GA-8217) (see Note 12). Benefit payments and administrative services are provided under both contracts.

Retirement Benefits - The Plan's normal retirement benefits are determined using a two-step defined benefit formula.

The first formula is the five-year-average benefit formula. This formula is used to determine an eligible participant's retirement benefits for service before 1987. Under this formula, monthly retirement benefits are based on the length of a participant's service and the rate of employer contributions payable for the participant's last five years of service. Although service after 1986 is not recognized for this formula, employer contribution rates payable on behalf of active participants through the end of 1991 are recognized in determining retirement benefits.

NOTE 2. DESCRIPTION OF THE PLAN (CONT'D)

The second formula is the contribution-account benefit formula. This formula is used to determine an eligible participant's retirement benefits for contributory service after 1986 and, if the participant is first covered by the Plan after 1986, for non-contributory service when applicable. Under this formula, monthly retirement benefits are based on a percentage of total employer contributions payable for all of the participant's non-forfeited service after 1986.

Beginning in 2009, the benefit accrual rates were reduced to 1.20% for all participants, regardless of years of service. Benefits earned by a non-vested participant may be permanently forfeited under certain conditions. For participants who earned a year of vesting service after December 31, 1990, the vesting period was reduced from ten years to five years.

Early Retirement Benefits - The three conditions for early retirement benefits eligibility are that a participant:

1. be a vested participant,
2. has reached the earliest retirement date, and
3. has retired from employment.

The Plan allows certain eligible participants to retire early and receive a retirement benefit equal to 100% of the normal retirement benefit. The subsidized early retirement benefits provided under the Plan are subject to payment of increased contribution surcharges under the Program for Enhanced Early Retirement (PEER).

Disability Retirement Benefits - To be eligible for disability retirement benefits, a participant must:

1. be vested or an age pensioner,
2. meet the recent coverage requirement,
3. be receiving disability insurance benefits under the Federal Social Security Act,
4. be under age 65 when meeting the first three conditions, and
5. remain continuously disabled from the disability onset date to the date of meeting the first three conditions.

Participants eligible for disability retirement benefits receive a benefit in the amount of the early retirement benefit, if eligible, but no less than 85% of their normal retirement benefit.

Other Benefits - Surviving spouses and children are entitled to monthly survivor benefits under certain conditions. Also, beneficiaries of retired and non-retired participants are entitled to death benefits under certain conditions, as determined under the Plan.

NOTE 3. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan assets to be used for, or diverted to, purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations. Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

Certain benefits under the Plan are guaranteed by Prudential (see Note 12). In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits, and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of Plan amendments in effect for less than five years. Some benefits may be fully or partially provided, while other benefits may not be provided at all.

NOTE 4. TAX STATUS

The Plan obtained its latest determination letter, dated February 19, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Section 401(a) of the Internal Revenue Code and was, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plan has been amended since receiving the determination letter. However, the Trustees and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate the tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Management has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for the fiscal years prior to 2010.

The Plan is invested in certain investment funds that generate unrelated business taxable income (UBTI) and alternative minimum tax (AMT). The Plan is required to file an annual tax return with the Internal Revenue Service and the applicable states and pay federal and state income tax on the UBTI/AMT. For the year ended December 31, 2012, the federal and

NOTE 4. TAX STATUS (CONT'D)

state tax expense was \$1,348,080. As of the end of 2012, the Plan had approximately \$25 million in UBTI loss carryforwards to be utilized in the future. A deferred tax asset relating to the accumulated loss carryforward of approximately \$8.8 million has been recorded, less a 100% valuation allowance. The valuation allowance is based on all available evidence that the deferred tax asset will not be realized due to the uncertain nature of the UBTI being generated on an annual basis. As of the date of this report, the potential tax expense for 2013 is unknown as the annual tax returns are still in process.

NOTE 5. FUNDING POLICY

The Trust Agreement provides that the Trustees shall establish and adjust the levels of prospective Plan benefits so that the employer contributions received by the Plan will always meet the minimum funding standards of Section 302 of ERISA and Section 412 of the Internal Revenue Code of 1986. The Trustees have established a funding policy that specifies funding targets that may result in more rapid funding than prescribed by the minimum funding standards and that provides for benefit adjustments based on specified funding targets.

Employer contributions are determined from employment hours reported by participating employers and the contractual employer contribution rates in effect.

The Plan's actuary has advised that the minimum funding requirements of ERISA are being met as of January 1, 2013 and 2012.

NOTE 6. ACTUARIAL INFORMATION

The actuarial present value of accumulated Plan benefits as determined by the Plan's actuary as of December 31, 2012, is as follows:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 20,973,585,000
Other participants	15,135,301,000
Total vested benefits	<u>36,108,886,000</u>
Non-vested benefits	<u>1,756,561,000</u>
Total actuarial present value of accumulated Plan benefits	<u>\$ 37,865,447,000</u>

NOTE 6. ACTUARIAL INFORMATION (CONT'D)

The changes in the present value of accumulated Plan benefits for the year ended December 31, 2012, were as follows:

Actuarial present value of accumulated Plan benefits at beginning of year	\$ 36,847,336,000
Increase (decrease) during the year attributable to:	
Change in actuarial assumptions	101,790,000
Benefits accumulated	662,779,000
Increase due to decrease in discount period	2,492,443,000
Benefits paid	(2,367,600,000)
Other experience	128,699,000
Net change	<u>1,018,111,000</u>
Actuarial present value of accumulated Plan benefits at end of year	<u>\$ 37,865,447,000</u>

The computations of the actuarial present value of accumulated Plan benefits were made by McGinn Actuaries, Ltd., as of January 1, 2013. Had the valuation been made as of December 31, 2012, there would be no material differences. No Plan amendments were adopted on January 1, 2013.

NOTE 6. ACTUARIAL INFORMATION (CONT'D)

The method used in the valuation was the entry-age actuarial cost method. The significant actuarial assumptions used are as follows:

Assumed rates of return on investments and the rates used to discount liabilities specially backed by dedicated asset investments:

Fixed Dollar Account:	6.7% for 2013; 6.8% for 2012; and decreasing gradually to 6.5% in 2015 and thereafter.
82/84 Annuity Account:	3.55% (2013); 4.20% (2012).
Strategic Bond Account:	4.99% (2013); 5.43% (2012).
Assumed rates of return on remaining investments and the rates used to discount remaining liabilities:	7.00% for 2012 and thereafter.
Expenses:	\$85 million per year.
Rates of age retirements:	Tables developed from Plan experience based on years of service, eligibility for PEER and other factors.
Rates of employee termination:	Tables developed from Plan experience based on separate rates for non-seasonal and seasonal employees.
Rates of mortality for retirements:	Tables developed from the RP-2000 mortality tables and adjustment factors modified to reflect recent Plan experience and projected using Scale AA for non-retired participants and age retirees and beneficiaries.
Rates of mortality for disability retirements:	Tables developed from Plan experience.
Survivor benefit cost:	Family composition tables from the 15th Actuarial Valuation published by the Railroad Retirement Board.

NOTE 6. ACTUARIAL INFORMATION (CONT'D)

The above actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Pension benefits in excess of the present assets of the Plan are dependent on contributions received under collective bargaining agreements with employers and on income from investments.

Because information on the accumulated Plan benefits at December 31, 2013, and the changes therein for the year then ended are not included above, these financial statements do not purport to present a complete presentation of the financial status of the Plan as of December 31, 2013, and the changes in its financial status for the year then ended, but only present the net assets available for benefits and the changes therein as of and for the year ended December 31, 2013. The complete financial status is presented as of December 31, 2012.

NOTE 8. INVESTMENTS AT FAIR VALUE HIERARCHY (CONT'D)

A reconciliation of the activity from the beginning to the end of year for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at December 31, 2013 and 2012, follows. The amount of total gains or losses for the year included in the changes in net assets available for benefits attributed to the unrealized gains or losses of assets still held at year-end is also included.

NOTE 9. FINANCIAL INSTRUMENTS

As part of the total investment strategy, and to meet the primary objectives established by the Trustees, several of the Plan's investment managers utilize derivative financial instruments. Risks associated with derivatives vary widely, but generally may be categorized as market risk, credit risk and interest rate risk. Market risk is defined as that risk associated with fluctuations in market price. Credit risk is defined as that risk associated with an entity not paying. Interest rate risk is defined as risk associated with changes in general interest rates or yield curves that could adversely affect the fair value of an investment.

Some of the Plan's investment managers enter into options, warrants and rights, futures, swaps and forward currency exchange contracts. The Plan uses futures, options and swaps for hedging purposes and not on a speculative basis, but the use of these instruments would be considered trading securities for purposes of reporting. The Plan uses futures, swaps and forwards for bona fide hedging purposes and to manage duration, yield curve, convexity, spread risk and credit risk with portfolios.

In addition, investment managers utilize currency forward transactions to protect or partially protect against fluctuations in exchange rates between countries when purchasing non-dollar issues for the portfolio. These instruments are helpful in eliminating volatility that may be experienced by the portfolio due to changes in exchange rates. By purchasing or selling the proper amount of these instruments, the investment manager is able to capture the underlying value of the foreign security without taking on the additional risk of currency.

An option is a contract that grants the right, but not the obligation, to exercise a specific purchase or sales transaction at a stated exercise price. Warrants and rights are investment instruments similar to options. A futures contract is a standardized agreement between two parties to buy and sell an asset at a set price on a future date. The Plan enters into financial futures contracts solely for the purpose of hedging its existing portfolio securities, or securities the Plan intends to purchase, against fluctuations in fair value caused by changes in prevailing interest rates or as substitutes for cash securities permitted under the relative account guidelines. Upon entering into a financial futures contract, the Plan is required to pledge to the broker an amount in cash, United States government securities or other assets equal to a certain percentage of the contract amounts (initial margin deposit).

Subsequent payments, known as "variation margin," are made or received by the Plan each day, depending on the daily fluctuations in the fair value of the underlying security. The Plan recognizes an unrealized gain or loss equal to the daily variation margin. Should market conditions move unexpectedly, the Plan may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. When the contract is closed, the Plan recognizes a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts, interest rates and the underlying hedged assets. The variation

NOTE 9. FINANCIAL INSTRUMENTS (CONT'D)

margin receivable/payable is included in accrued investment income on the statements of net assets available for benefits.

Credit default swaps (CDS) entered into by the Plan typically represent the exchange by a counterparty with the Plan of a commitment to provide credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. Receiving credit protection from a counterparty tends to decrease the Plan's exposure to the underlying instrument held by the Plan. Such contracts may have a term of one to seven years, but typically require periodic interim settlement in cash. Credit default swaps are marked to market daily based on prices obtained from independent broker/dealers, and changes in value, as well as the accrual of the periodic coupon income, are recorded as unrealized appreciation or depreciation. Gains and losses on CDS agreements are realized upon termination of the swap contract and the periodic payments.

A credit default swap index (CDX) is a credit derivative used to hedge credit risk or to take a position on a group of credit entities. A CDX may be more liquid and trade at a smaller bid-offer spread. This means that it can be cheaper to hedge a portfolio of credit default swaps or bonds with a CDS index than it would be to buy many CDS to achieve a similar effect. Credit default swap indexes are benchmarks for protecting the Plan's investments in bonds against default.

The Plan has entered into interest rate swap agreements. Through such transactions, the parties agree to pay, on specific dates, either a fixed or floating rate of interest on the contract amount. Risks in these transactions involve both the risk of counterparty nonperformance under the terms of the contract and the risk associated with changes in the market value of the swaps.

The Plan has also entered into foreign currency forward contracts to protect its investments in foreign securities from price declines caused by changes in currency exchange rates. A foreign currency forward contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the value of the original contracts and the value upon closing such contracts is included in net realized gain or loss on foreign currency transactions. Fluctuations in the value of open foreign currency forward contracts are recorded as unrealized gains and losses.

The Plan may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Plan sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which the short sale was made. A gain, limited to the price at which the Plan sold the security short, or a loss, unlimited in size, will be recognized upon termination of the short sale.

The accompanying financial statements reflect these unrealized gains and losses, not the gross value or notional amount of the underlying securities. At December 31, 2013 and 2012, approximately \$32,455,000 and \$91,906,000, respectively, had been pledged against the futures contracts to cover the initial margin and collateral requirements.

NOTE 10. SECURITIES LENDING

The Trustees authorized the Plan to enter into securities lending agreements with a custodial bank and Prudential (the Lending Agents) to lend securities to third parties. The Lending Agents must obtain collateral from the borrowers in the form of cash or securities issued or guaranteed by the United States Government or its agencies equal to at least 102% (105% for foreign loans) of the market value of the loaned securities plus accrued income. The market value of the collateral is marked to market daily. Except as noted below, if the market value of the collateral is less than the minimum percentage (100%), the Lending Agents require that additional collateral be delivered the following day to meet the required percentage of the market value of the loaned securities, plus accrued interest. During the time the securities are on loan, the Plan will continue to receive the interest and dividends, or amounts equivalent thereto, on the loaned securities. The right to terminate the loan is given to both the lenders and the borrowers, subject to appropriate notice. Upon termination of the loan, the borrowers will return to the lenders securities identical to the loaned securities and the collateral held by lenders will be returned to the borrowers.

The fair value of the securities on loan is as follows:

	<u>December 31,</u>	
	<u>2013</u>	<u>2012</u>
Securities on loan, at fair value		
Custodial bank	\$ 626,812,062	\$ 356,488,597
Prudential	<u>2,634,463,135</u>	<u>2,554,772,342</u>
Total securities on loan	<u>\$ 3,261,275,197</u>	<u>\$ 2,911,260,939</u>

The Lending Agents are authorized to invest and reinvest any and all cash collateral. Cash collateral may be invested or reinvested in accordance with the investment guidelines set forth in the securities lending agreements. Prudential invested a portion of the cash collateral in the Prudential Core Investment Fund - Short-Term Bond Series Account (Prudential Bond Account), an approved vehicle for reinvested cash collateral. The custodial bank reinvested the cash collateral in a pool of approved securities.

NOTE 10. SECURITIES LENDING (CONT'D)

The liability to return securities lending collateral, unrealized gains (losses) and fair value of collateral are as follows:

<u>As of December 31, 2013</u>	<u>Liability to Return Collateral</u>	<u>Unrealized Gains (Losses)</u>	<u>Fair Value of Collateral</u>

Total	<u>\$ 2,974,900,924</u>	<u>\$ (121,371,465)</u>	<u>\$ 2,853,529,459</u>

As shown on the statements of changes in net assets available for benefits, the unrealized gains on the reinvested collateral for the years ended December 31, 2013 and 2012, were \$17,485,992 and \$69,616,825, respectively.

Although the Plan's securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowers of securities will be unable to collateralize their loan upon a sudden material change in the fair value of the loaned securities or collateral. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts. To minimize risk, the Plan restricts counterparties to the highest quality firms. If a loan of securities is terminated and such securities are returned, the Plan could sustain realized losses on the collateral if it were necessary to liquidate collateral invested in the Prudential Bond Account.

The Plan earned securities lending income (net of fees) totaling approximately \$18,758,000 and \$17,319,000, respectively, for the years ended December 31, 2013 and 2012. These amounts are included in investment income on the statements of changes in net assets available for benefits.

NOTE 11. INVESTMENTS IN CERTAIN ENTITIES THAT CALCULATE NET ASSET VALUE

The Plan utilizes net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The fair value of the following investments was measured using NAV (or its equivalent).

NOTE 12. NET ASSETS AVAILABLE FOR BENEFITS

The Plan allocates net assets available for benefits between Retired and Survivor Guaranteed Annuities, certain Non-Guaranteed Benefits for Retirees and Survivors, and Non-Guaranteed Benefits for Future Retirees and Survivors. Effective January 1, 1998, the Plan entered into two insurance company group annuity contracts with Prudential, which superseded the group annuity contract in effect since 1955. Under one contract, Prudential guarantees retirement benefits to a closed group of annuitants and their beneficiaries (Retired and Survivor Guaranteed Annuities). The initial contribution to this contract was \$7.46 billion, representing an amount equal to 105% of the Contract Liability Amount as of the effective date of the contract. This contract will remain in full force and effect until such date that there are no further annuities or other guaranteed payments payable under the contract. The contract will terminate at that time, and the remaining assets held under the contract, if any, less any expenses or other fees, would be transferred back to the general Plan assets. Non-Guaranteed Benefits are covered by the remaining Plan assets, including a second contract that consists of separate investment accounts that are managed by Prudential. The net assets available for benefits allocated between the Retired and Survivor Guaranteed Annuities, Non-Guaranteed Benefits for Retirees and Survivors, and Non-Guaranteed Benefits for Future Retirees and Survivors are summarized as follows:

	<u>December 31,</u>	
	<u>2013</u>	<u>2012</u>

NOTE 14. EMPLOYER WITHDRAWAL LIABILITY

The Plan complies with the provisions of the Multiemployer Pension Plan Amendment Act of 1980 (MPPAA), which requires imposition of withdrawal liability on a contributing employer that partially or totally withdraws from the Plan. Under the provisions of the MPPAA, a portion of the Plan's unfunded vested liability would be allocated to a withdrawing employer. The Plan's actuary has advised the Plan that, as of December 31, 2012 and 2011, the Plan has an estimated unfunded vested liability of \$6.300 billion and \$5.142 billion, respectively.

For the years ended December 31, 2013 and 2012, employers who have withdrawn from the Plan have been assessed a withdrawal liability of approximately \$14,009,000 and \$15,694,000, respectively. These amounts have been recorded net of an allowance equal to the total amount assessed because collectability is uncertain. During the years ended December 31, 2013 and 2012, the Plan received approximately \$24,478,000 and \$11,819,000 in withdrawal liability payments.

NOTE 15. MAJOR EMPLOYER

During the years ended December 31, 2013 and 2012, approximately 38% of contributions, were received from one employer.

NOTE 16. SUBSEQUENT EVENTS

Subsequent events were evaluated through the date on which the financial statements were available to be issued. This date is approximately the same as the independent auditors' report date.

ADDITIONAL INFORMATION

INDEPENDENT AUDITORS' REPORT ON ADDITIONAL INFORMATION

To the Participants and Trustees of
Western Conference of Teamsters Pension Plan

We have audited the financial statements of Western Conference of Teamsters Pension Plan (the Plan) for the years ended December 31, 2013 and 2012, and have issued our report thereon dated September 10, 2014, which contained an unmodified opinion on those financial statements. Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying information included on page 45, Schedule G - Financial Transaction Schedules (IRS Form 5500) and Schedule H - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is additional information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

5900 Wilshire	L.A. Fitness, Inc.	Office Tenant	Office Building located at 5900 Wilshire, Los Angeles, CA, purchased in December 2005. Rental terms are individually negotiated. Amount in arrears is for Parking reimbursement increases, which the tenant has not processed. Balance also includes \$20,346.69 in supplemental utility and miscellaneous charges which the Tenant pays one month in arrears; this amount has since been collected.						\$ 27,771
Florin Towne Centre	Clean Up Nice	Retail Tenant	Retail Building, Sacramento, CA, purchased in 2008. Lease expires 2/28/2014. A lease renewal was negotiated in 2014 which included a conditional write-off of this balance if not in default.						37,788
Florin Towne Centre	Wings Fiesta	Retail Tenant	Retail Building, Sacramento, CA, purchased in 2008. Lease expires 1/23/2022. This tenant went into default in May 2013 with the last payment received on 6/17/13. The property commenced soft leasing efforts in 2013. The tenant ceased operations and vacated. The property re-leased this space in April 2014. Asset search resulted in the determination that this balance is uncollectible and will likely be written-off, less the security deposit in the amount of \$6,459.75.						
Florin Towne Centre	FAMSA	Retail Tenant	Retail Building, Sacramento, CA, purchased in 2008. Lease expires in 1/31/24. The tenant vacated in 2012 which triggered a legal suit. Currently this issue is in arbitration. The balance reflected includes all charges through 4/1/13.						47,173
Florin Towne Centre	Sassy	Retail Tenant	Retail Building, Sacramento, CA, purchased in 2008. Lease expires 1/31/2014. The tenant filed for bankruptcy with no assets to report therefore, this amount will likely be a write-off. The tenant continues to occupy the space in order to maintain the center occupancy while being marketed for lease.						314,314
Florin Towne Centre	Star Beauty	Retail Tenant	Retail Building, Sacramento, CA, purchased in 2008. Lease expires 11/30/13. In renewal/work-out negotiations that would include conditionally writing-off the tenant balance if not in default.						167,783
Florin Towne Centre	Hot Pot City	Retail Tenant	Retail Building, Sacramento, CA, purchased in 2008. Lease expires 8/31/22. This balance was written-off in January 2013. This tenant is in default. There have been ongoing discussions regarding this balance and pay-back plans with no resolution to date. The property is holding a \$170,000 tenant improvement reimbursement due to this default.						89,939
Glenbrook Commons	JP Nail Spa	Retail Tenant	64,707 sf shopping center in Clermont, Florida completed in 2009. Tenant vacated 11/30/12. Unable to obtain service. Attorney recommends closing the case.						106,997
