## **INDEPENDENT AUDITORS' REPORT**

To the Participants and Trustees of  
Western Conference of Teamsters Pension Plan

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Western Conference of Teamsters Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also

To the Participants and Trustees of  
Western Conference of Teamsters Pension Plan

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Western Conference of Teamsters Pension Plan's net assets available for benefits as of December 31, 2015, and changes therein for the year then ended and its financial status as of December 31, 2014, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Actuarial Assumptions

### Investment Earnings Assumptions

#### ***Fixed Dollar Account***

The assumed rate of return for these assets, which is used to value the pension benefits<sup>1</sup> for Pensioners and Beneficiaries whose benefits commenced on or before August 1, 1982 (as identified by Prudential Investments), is 6.50%.

#### ***1982/1984 Annuity Account***

The assumed rate of return for these assets, which is used to value the pension benefits<sup>1</sup> for Pensioners and Beneficiaries whose benefits commenced from September, 1982 through December, 1984 (as identified by Prudential Investments), is 5.87%.

#### ***Strategic Bond Account (SBA)***

The assumed rate of return for these assets is 4.88%. This assumption is used to value 85.20% of the pension benefits<sup>1</sup> related to service through December 31, 1985, based on December 31, 1984 Plan provisions and not covered by the prior asset dedications.

#### ***Remaining Assets***

The assumed rate of investment return which is used to value all benefits expected to be paid out of remaining assets and future contributions is 7.00%, net of investment expenses.

---

<sup>1</sup>Single sum death benefits are not valued using the investment earnings assumptions described above. Instead, the "Remaining Assets" assumption is used.

### Post-retirement Mortality Rates

For males

- Rates based on RP 2000 mortality tables
- Ages up through 29, male employee table,
- Ages 30-49, male employee table with blue collar adjustment
- Ages 50-70, custom blend of the healthy male annuitant and the employee tables, starting at 50%/50% at age 50, to 98%/2% at age 70. The blended table is adjusted by male blue collar adjustments
- Ages 70 and above, healthy male annuitant, adjusted by blue collar adjustments
- All projected to 2015 using male Scale AA

For females

- Rates based on RP 2014 mortality tables
- Ages up through 49, female employee table set forward one year, with blue collar adjustment
- Ages 50-78, healthy female annuitant table set forward one year, with blue collar adjustment
- Ages 79-119, 95% of healthy female annuitant table, set forward one year, with blue collar adjustment
- All projected to 2020 using Scale BB, set forward one year

**SCHEDULE MB, LINE 6, STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS**

Special mortality tables, reflecting Plan experience, are used for disabled pensioners. Examples of mortality rates used are shown in the table below:

85	0.1086	0.0677	0.1086	0.0677	0.1362	0.0981

**Pre-retirement Mortality Rates**

The assumed annual rates of healthy mortality for males is based on the RP 2000 Mortality Tables for Male Employees adjusted for Blue Collar and projected by Scale AA to 2015.

The assumed annual rates of healthy mortality for females is based on the RP 2014 Mortality Tables for Female Employees, set forward one year, adjusted for Blue Collar and projected by Scale BB, set forward one year, to 2020.

**Provision for Non-investment Expenses**

Administrative expenses are assumed to be \$97 million per year, payable mid-year.

**Age Retirement Rates**

Age retirement rates apply only to retirement eligible participants.

We use five retirement rate tables. Their values are displayed in the three columns of table (1), and the fourth and fifth columns of table (2), below. (Note that the first two columns of table (1), and the first two columns of table (2), represent the same two tables).

In general, for a given participant in a PEER unit, two or more of these tables may be accessed during a single run, with the under 25 years of service rates applying until the participant is projected to attain the required number of age plus service points, (80, 82, or 84) at which time the 25 or more years of service rates apply.

**Future Annual Hours and Contributions**

Projected benefit amounts for 2015 were calculated assuming that: (a) Active Non-Seasonal employees work an average of 1800 hours per year; (b) Active Seasonal employees work an average of 600 hours per year; and (c) contribution rates would continue at the December 31, 2014 levels.

A non-retired participant was considered Active as of January 1, 2015 if he or she earned at least 250 covered hours during 2014, or at least 1 covered hour in 2014 and at least 250 covered hours in 2013.

**Expected Annual Employer Contributions**

The annual employer contributions expected during 2015 have been assumed to be \$1.500 billion. This amount is used to determine the projected Funding Standard Account and the expected amortization period of the UAL.

**Sample Valuation Data**

We have relied on data supplied by Prudential Investments and Northwest Administrators. The actuarial values for non-retired participants are based on a sample of the employees covered under the Plan, as described in Appendix B. The actuarial values for records with valid data are adjusted for sampling and incomplete data, and the results are assumed to represent the values of the entire covered group.

**Form of Payment**

Participants without recent coverage are assumed to elect the single life annuity. Participants with recent coverage are assumed to elect a four year certain and life annuity. A factor of 1.0039 is applied in order to account for the availability of a subsidized joint and survivor benefit.

**Probability of Marriage**

Non-retired participants are assumed to be married at various percentages. Below is a brief summary of these percentages.

Age	Probability of Marriage
32	69.8%
42	75.5%
52	82.0%
62	82.0%

SCHEDULE MB, LINE 6, STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS**

### Spouse Age Difference

Where applicable, husbands are assumed to be two years older than their wives.

### Past Employment

Total past employment (continuous past employment plus special past employment) for each employee was calculated as the number of years from year of union membership until year of coverage, but not less than the known continuous past employment for the employee.

### Survivor Benefit Costs

The family composition of covered employees was assumed to be similar to that tabulated in the 15<sup>th</sup> Actuarial Valuation published by the Railroad Retirement Board. This assumption was used to estimate the probability that an employee will be survived by a beneficiary eligible for a survivor benefit and to establish the probable duration of the benefit.

### Inactive Participants

Vested inactive participants who are older than 74 as of the valuation date are assumed to be deceased and excluded from this valuation. Inactive participants who are coded as a claim for more than one year are expected to be either deceased or not eligible for a benefit from the Plan. We assume that any such participants do not have and will not create any liability for the Plan.

### Assumption Changes Incorporated in the January 1, 2015 Valuation

- The current liability interest rate was decreased from 3.64% to 3.51% to remain within the IRS prescribed corridor.
- The current liability mortality tables were changed from annuitant / non-annuitant projected version of the RP-2000 Mortality Tables for 2014 to the annuitant / non-annuitant projected version of the RP-2000 Mortality Tables for 2015 as prescribed by the IRS.
- The discount rate used for the 1982/1984 Annuity Account was changed to 5.87% for 2015 from 6.59% for 2014, and the discount rate used for the SBA Dedication was changed to 4.88% for 2015 from 4.42% for 2014.

The following assumptions were changed to better reflect recent and expected future experience:

- The anticipated annual employer contributions were increased to \$1.500 billion for purposes of projecting the 2015 Funding Standard Account and determining the Amortization Period.
- The subsidized joint and survivor factor was changed from 1.0045 to 1.0039 to update to current assumptions.
- The future annual administrative expenses were increased to \$97 million from \$87 million.
- The assumed annual rates of pre-retirement healthy mortality for females were changed to the RP 2014 Mortality Tables for Female Employees, set forward one year, adjusted for Blue Collar and projected by Scale BB, set forward one year, to 2020.
- The assumed annual rates of post-retirement healthy mortality for females were changed to the RP 2014 Mortality Tables for Employees and Annuitants, set forward one year, adjusted for Blue Collar and projected by Scale BB, set forward one year, to 2020.

### Actuarial Value of Assets

The Prudential Investments Fixed Dollar Account (FDA), in general, was valued at book value. However, to the extent that cash flows from the FDA are not sufficient to provide the projected FDA benefits, certain bonds valued at amortized cost were assigned to the FDA so that all projected FDA benefits were supported by dedicated assets. The 1982/1984 Annuity Account and the SBA were valued on an amortized cost basis. Below is a summary of the actuarial value of the dedicated asset as of the valuation date:

<b>Dedicated Account</b>	<b>(In Thousands)</b>
FDA	\$ 94,100
1982/1984 Annuity Account	57,629
SBA	<u>3,345,612</u>
Total Actuarial Value of Dedicated Assets	\$ 3,497,341

The remaining assets were valued using a smoothing procedure under which the 2008 market value loss is recognized at the rate of 10% per year for ten years. All other market value gains and losses are recognized at the rate of 20% per year over five years. The actuarial value of the remaining assets may not be greater than 120% or less than 80% of the market value.

The actuarial value of assets for purposes of determining the unfunded vested benefit liability is the same method used for ERISA funding purposes, except the Pension Relief Act of 2010 election to smooth the 2008 investment loss is not used.

### Actuarial Cost Method

The Unit Credit actuarial cost method was used for this valuation. Under this method, the Actuarial Liability is the Accrued Benefit Liability for all participants included on the valuation date. The Normal Cost is: (i.) the expected increase in Accrued Benefit Liability for these participants resulting from benefits earned during the current year, plus (ii.) the expected increase in Accrued Benefit Liabilities resulting from new participants who are covered employees on the valuation date.

### Spouse Age Difference

Where applicable, husbands are assumed to be two years older than their wives.

### Past Employment

Total past employment (continuous past employment plus special past employment) for each employee was calculated as the number of years from year of union membership until year of coverage, but not less than the known continuous past employment for the employee.

### Survivor Benefit Costs

### Inactive Participants

Vested inactive participants who are older than 74 as of the valuation date are assumed to be deceased and excluded from this valuation. Inactive participants who are coded as a claim for more than one year are expected to be either deceased or not eligible for a benefit from the Plan. We assume that any such participants do not have and will not create any liability for the Plan.

### Assumption Changes Incorporated in the January 1, 2015 Valuation

- The current liability interest rate was decreased from 3.64% to 3.51% to remain within the IRS prescribed corridor.
- The current liability mortality tables were changed from annuitant / non-annuitant projected version of the RP-2000 Mortality Tables for 2014 to the annuitant / non-annuitant projected version of the RP-2000 Mortality Tables for 2015 as prescribed by the IRS.
- The discount rate used for the 1982/1984 Annuity Account was changed to 5.87% for 2015 from 6.59% for 2014, and the discount rate used for the SBA Dedication was changed to 4.88% for 2015 from 4.42% for 2014.

The following assumptions were changed to better reflect recent and expected future experience:

- The anticipated annual employer contributions were increased to \$1.500 billion for purposes of projecting the 2015 Funding Standard Account and determining the Amortization Period.
- The subsidized joint and survivor factor was changed from 1.0045 to 1.0039 to update to current assumptions.
- The future annual administrative expenses were increased to \$97 million from \$87 million.
- The assumed annual rates of pre-retirement healthy mortality for females were changed to the RP 2014 Mortality Tables for Female Employees, set forward one year, adjusted for Blue Collar and projected by Scale BB, set forward one year, to 2020.
- The assumed annual rates of post-retirement healthy mortality for females were changed to the RP 2014 Mortality Tables for Employees and Annuitants, set forward one year, adjusted for Blue Collar and projected by Scale BB, set forward one year, to 2020.

[SCHEDULE MB, LINE 11, JUSTIFICATION FOR CHANGE IN ACTUARIAL ASSUMPTIONS](#)

**1. Active Participation**

Non-Seasonal employees for whom contributions are required to be made to the Trust under the terms of a pension agreement become “Active Participants” on the day on which they first accumulate 750 covered hours in the current and immediately preceding calendar years. Seasonal employees become “Active Participants” if they satisfy one-half of the covered hour requirement of Non-Seasonal employees.

**2. Monthly Pension at Normal Retirement**

The monthly pension earned for service prior to 1987 is determined based on the 1986 Plan provisions as outlined in the January 1, 1986 Actuarial Report. The final five-year average contribution rate used for this determination recognizes contribution rates applicable to all 500 hour years through 1991.

For service after 1986, monthly pension benefits are earned as follows:

Calendar Year	Contribution Percentage	
	First 20 Years	After 20 Years
1987-1991	2.00%	2.65%
1992-1996	2.30%	3.05%
1997-1999	2.46%	3.26%
2000-2002	2.70%	3.58%
1/2003-6/2003	2.20%	2.92%
7/2003-2006	1.20%	1.20%
2007	1.65%	1.65%
2008	2.00%	2.65%
2009+	1.20%	1.20%

**3. Past Service Credits**

A participant is granted credit for the number of years and months of specified types of unbroken employment rendered prior to his or her first covered hour, subject to limits specified in the Plan.

**4. Vesting Service**

A Plan member earns a vesting service year for each year after 1975 during which he or she is credited with at least 500 covered hours (250 covered hours for Seasonal Plan members). For service before 1976, a Plan member is credited with a vesting service year for each year of continuous coverage under the Plan.

**5. Normal Retirement Age**

A participant reaches Normal Retirement Age upon the later of age 65 or an Active participant’s age on the second anniversary of his or her first covered hour.

**EIN/PN: 91-6145047 / 001**  
**SCHEDULE MB, LINE 6, SUMMARY OF PLAN PROVISIONS**

**6. Normal Pension Form**

The normal form of pension for unmarried participants is a Life Only Pension. In general, married participants who do not elect otherwise receive a reduced Employee and Spouse Pension. This reduced amount is an “actuarial equivalent” of the Life Only Pension. Participants who retired under the Employee and Spouse Pension Option will have their pension restored to the amount payable under the Normal Form if the spouse dies first. In the event that the participant dies first, the amount of spouse pension is 66 2/3% of the retiree’s pension for those who retired after 1991 with recent coverage; otherwise the amount of spouse pension is 50% of the retiree’s pension. In both instances, the actuarial reduction factor for the Employee and Spouse Pension amount is calculated as though the spouse pension benefit would be 50% of the reduced Employee and Spouse Pension.

**7. Other Pension Forms**

An Optional Employee and Spouse Pension providing a 75% spouse pension is available. Participants retiring under age 65 may elect a Benefit Adjustment Option with or without the regular or Optional Employee and Spouse Pension.

**8. Early Retirement Eligibility Date**

In general, this date is the first day of the month coincident with or immediately following the later of the participant’s 55<sup>th</sup> birthday or the date the individual becomes a vested participant. However, a participant with recent coverage may retire at any age if he or she meets the Rule of 84 (or Rule of 82 or Rule of 80) under the Program for Enhanced Early Retirement (PEER program); that is, the sum of his or her attained age plus years of contributory service is equal to or greater than 84 (or 82 or 80).

**9. Monthly Pension at Early Retirement for a Participant with Recent Coverage**

If a participant meets the Rule of 84 and has recent coverage, the monthly pension benefit is reduced by the sum of 0.45% for each of the first 60 months that the early retirement date precedes his or her 62<sup>nd</sup> birthday plus 0.33% for each month that the early retirement date precedes his or her 57<sup>th</sup> birthday.

If a participant has recent coverage but does not meet the Rule of 84, his or her monthly pension benefit is reduced by the sum of 0.60% for each of the first 60 months that the early retirement date precedes his or her 62<sup>nd</sup> birthday plus 0.40% for each month that the early retirement date precedes his or her 57<sup>th</sup> birthday.

**10. Monthly Pension at Early Retirement for a Participant with Current PEER Coverage**

If a participant meets the Rule of 84 (or Rule of 82 or Rule of 80), is a member of a bargaining unit which has negotiated PEER 84 (or PEER 82 or PEER 80) contribution surcharges, and has current PEER coverage, the early retirement benefit equals 100% of the earned pension benefits. A participant has current PEER coverage at his or her retirement effective date if the applicable PEER contributions have been paid for at least 1,000 covered hours in the 24-month period immediately preceding his or her retirement effective date.

**Note:** If a participant is in a category of early retirement where benefits are subsidized (as described in paragraph 1 of Item 9 or in Item 10) and accumulates 25 years of service under the Plan while so covered, then his or her subsidized early retirement benefits are “locked-in” and cannot be forfeited.

**EIN/PN: 91-6145047 / 001**  
**SCHEDULE MB, LINE 6, SUMMARY OF PLAN PROVISIONS**

**11. Disability Benefit**

Upon a vested participant's total and permanent disability before age 65, the monthly benefit is the greater of (a) 85% of the earned monthly pension benefit or (b) the early retirement pension otherwise payable, provided the vested participant has met the specified recent coverage requirement on the disability onset date.

**12. Vested Benefit Upon Termination of Employment**

Upon termination of employment, a participant is vested in his or her accrued pension, based on past and future service credits, if he or she has completed at least 5 years of vesting service, one of which was completed during or after 1991.

A terminated vested participant may elect early commencement of the earned retirement benefit at any time on or after the Early Retirement Eligibility Date. If the participant does not have recent coverage and has not "locked-in" rights to unreduced pension benefits by having completed 25 years of Plan service before termination, the benefit is reduced by the sum of 0.60% per month for each of the first 60 months that the early retirement date precedes the participant's 65<sup>th</sup> birthday plus 0.40% per month for each month that such early retirement date precedes the participant's 60<sup>th</sup> birthday.

Vested participants who are not covered by the current Plan provisions may be subject to additional limitations on their benefits.

**13. Extra Check**

An annual "Extra Check" is payable to: (i.) pre-1985 retirees in the amount of \$540 and to (ii.) their eligible survivors in the amount of \$450.

**14. Death Benefits**

Upon the death of a participant or pensioner who has met the specified recent coverage requirement, a temporary monthly pension is payable to the surviving children under conditions specified in the Plan.

A pre-retirement benefit to the surviving spouse is payable upon the death of a vested participant. If a married participant had recent coverage at the time of death, the spouse receives an immediate benefit based on the participant's earned benefit. The earned benefit is reduced to reflect early retirement, as specified in the Plan, and the appropriate Employee and Spouse Pension factor. 66 2/3% of the resulting amount is then payable immediately to the spouse. If the participant does not have recent coverage, the benefit is calculated as described above, but a 50% factor is applied in lieu of the 66 2/3% factor, and, if the participant was not eligible to retire on the date of death, commencement of the pension is deferred until the time the participant would have been first eligible to retire.

A single sum death benefit equal to 50% of contributions, subject to a maximum of \$10,000, is payable upon the death of an Active or Terminated participant who has completed at least 5 years of vesting service. In addition, for unmarried vested participants who satisfy the recent coverage requirements and would otherwise be eligible to retire, a death benefit of 48 times the participant's accrued pension, reduced to reflect early retirement as specified in the Plan, is payable as a lump sum amount.

**EIN/PN: 91-6145047 / 001**

**SCHEDULE MB, LINE 6, SUMMARY OF PLAN PROVISIONS**

Upon the death of a pensioner with a retirement date before January 1, 1992, a single sum benefit of 12 times the monthly normal form pension (Life Only annuity), subject to a maximum of \$10,000 is payable. Beginning with retirements in 1992, beneficiaries of retirees with recent coverage who elect a Life Only or Benefit Adjustment Option (without the Spouse Pension) receive a 4-Year Certain death benefit payment equal to 48 times the pensioner's Life Only benefit minus the total monthly payments already received by the pensioner.

If a pensioner retires after January 1, 1992, he or she may elect an Optional Lump Sum Death Benefit equal to 12 times the monthly normal form pension (Life Only annuity). The Optional Lump Sum Death Benefit is paid for by reducing the pensioner's monthly payment.

**15. Transition Provisions**

Certain minimum benefits are provided to participants who were covered by prior versions of the Plan.

## **INDEPENDENT AUDITORS' REPORT**

To the Participants and Trustees of  
Western Conference of Teamsters Pension Plan

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Western Conference of Teamsters Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also

To the Participants and Trustees of  
Western Conference of Teamsters Pension Plan

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Western Conference of Teamsters Pension Plan's net assets available for benefits as of December 31, 2015, and changes therein for the year then ended and its financial status as of December 31, 2014, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Method of Accounting** - The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

**Investment Valuation, Transactions and Income Recognition -**

*General* - Investments are carried at fair value, which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan’s assumptions about inputs that market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities’ own judgments and estimations, or some other pricing method using unobservable inputs.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

*Inputs and Valuation Methods* - In determining fair value, FASB ASC 820 allows various valuation approaches. The specific methods used for each of the Plan's investment classes are presented below.

*103-12 investment entities:* 103-12 investment entities are valued based on the net asset values and have been determined based on the unit values of the funds, which are determined by dividing the funds' net assets at fair value by the units outstanding at the valuation date (Level 2).

*Cash and cash equivalents:* The value of temporary cash held in short-term investment funds is based on quoted prices for similar assets in active markets (Level 2). Temporary cash held in banks is valued at cost, which approximates fair value (Level 1).

*Common/collective trusts:* Common/collective trusts hold investments in domestic and foreign equity securities, debt securities, and units in other affiliated and unaffiliated commingled trusts. The underlying assets may be valued based on quoted market prices, independent pricing services or by dealers making a market for certain securities. The unit values of the common/collective trusts are determined by dividing the underlying net asset values (assets less liabilities) by the outstanding number of units (Level 2).

*Corporate debt securities:* The fair value of corporate debt securities is generally determined based on a model that uses inputs such as interest-rate yield curves, which are similar to the valued obligations in terms of issuer, maturity and seniority (Level 2). The fair value of illiquid corporate debt securities is determined based on internally developed inputs (Level 3).

*Equity securities:* The fair value of common stock is generally based on quoted market prices in active markets (Level 1).

*Futures contracts and options:* Futures contracts and options that are publicly traded in active markets are valued at closing prices as of the last business day of the year (Level 1). Other futures contracts and options are valued at their fair value, as determined in good faith in accordance with the procedures adopted by the investment manager. Such procedures include obtaining quotes from pricing agents and utilizing pricing models based on available market data (Level 2).

*Insurance company contracts:* The insurance company contracts consist of investments of various types, including U.S. Government and Government Agency obligations, corporate debt securities, cash and cash equivalents, real estate, pooled separate accounts, mortgages and unallocated insurance contracts. The insurance company contract investments in corporate debt securities and U.S. Government and Government Agency

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

obligations are valued as described in the sections of this footnote entitled *Corporate debt securities* and *U.S. Government and Government Agency obligations*.

*Limited partnerships (private equity) and other private equity:* Limited partnerships and other private equity funds are valued using net asset value, which approximates fair value. Net asset value of these funds is based on the underlying assets' fair values, which include a combination of quoted market prices and estimated fair values determined by the general partners and managers of the other private equity funds using the most recent net asset values or capital account information available, independent appraisals, significant judgments and various mathematical models and methodologies (Level 3).

*Mutual fund:* The fair value of the mutual fund is generally based on quoted prices in active markets (Level 1).

*Pooled separate accounts (insurance company contracts):* Investments in the Temporary Investment Account are stated at the principal amount invested plus income earned (Level 2). Investments in the Union Mortgage Account, which is composed primarily of mortgage loans on income-producing commercial properties, are valued at estimated fair value using Prudential's Asset Liability Pricing System (ALPS). The estimated fair value of the mortgages may be adjusted for such factors as contractual prepayment options or losses in the fair value of the underlying real estate. The credit quality ratings are reviewed annually and are monitored by the portfolio manager throughout the year for events that could affect the quality of the mortgages (Level 2). The underlying investments in PRISA and PRISA II real estate accounts are valued at estimated fair value based upon property appraisals prepared by independent real estate appraisers. The investment debt on acquired real estate is reported at estimated fair value, which is determined using the discounted cash flow method (Level 3).

*Pooled separate account (other):* Investments in the pooled separate account consist primarily of pooled first-mortgage loans secured by institutional-grade properties throughout the United States. The fair value of each mortgage loan is established monthly by the investment manager as the present value of future mortgage payments due thereunder. The interest rate used to calculate the present value is determined by management as the market interest rate for the current month applicable to each loan after considering the market for comparable mortgage investments including such considerations as the loan's remaining life, call features, quality, geographic location and other pertinent information (Level 3).

*Real estate (insurance company contracts):* Investments in the Western Conference of Teamsters Separate Account (WCOT) are valued at the estimated fair value based upon property appraisals prepared by independent real estate appraisers. The investment debt on acquired real estate is reported at estimated fair value, which is determined using the discounted cash flow method (Level 3).

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

*Real estate (other):* Investments in real estate accounts are valued at estimated fair value based on appraisal reports prepared by independent real estate appraisers and/or the account's investment manager (Level 3).

*Swap agreements:* Swap agreements are recorded on the contract date. Amounts payable or receivable under the swap agreements are included on a net basis as a receivable from or payable to the swap counterparty on the statements of net assets available for benefits. Because no market quotations are readily available, swap agreements are valued at estimated fair value, as determined by the investment manager, utilizing pricing models based on available market data (Level 2).

*Unallocated insurance contracts:* Investments in the Prudential Fixed Dollar Account are stated at the principal amount invested plus income earned (Level 2).

*U.S. Government and Government Agency obligations:* The fair value of U.S. Government and Government Agency obligations is generally based on quoted market prices in active markets (Level 1). When quoted prices are not available, valuation is determined using a market-based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices (Level 2).

*Collateral held for securities on loan:* Cash collateral for securities on loan with the custodial bank has been reinvested in various types of debt securities for which values are determined using a model-based approach. Cash collateral for securities on loan through Prudential have been reinvested in the Prudential Core Investments Fund - Short-Term Bond Account (Level 2).

*Valuation Methods, Consistency* - The valuation techniques used in the accompanying financial statements have been consistently applied.

*Transactions and Income Recognition* - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**Contributions Receivable** - Employer contributions due and not paid prior to the year-end are recorded as employer contributions receivable. Allowance for uncollectible accounts is considered unnecessary and is not provided. Contributions due as a result of payroll audits have been recorded net of an allowance equal to the amount due because collectability is uncertain. Therefore, delinquent contributions are recorded when received.

**Withdrawal Contributions Income and Receivable** - Withdrawal contributions income is recognized when the withdrawal liability amount has been assessed. An allowance for uncollectible accounts is deemed necessary as collectability is uncertain due to the poor financial condition of some withdrawing employers.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

**Actuarial Present Value of Accumulated Plan Benefits** - Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that participants have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present active participants or their beneficiaries.

**Equipment and Other Fixed Assets** - The Plan's computer equipment and other fixed assets are recorded at cost. Furniture and computer equipment are depreciated using the straight-line method. Internally developed software is amortized using the straight-line method. Enhancements to internally developed software that result in additional functionality are capitalized.

Depreciation and amortization is calculated using the following estimated useful lives:

Furniture	7 years
Computer equipment	3 years
Internally developed software	10 years

Depreciation and amortization expense for the years ended December 31, 2015 and 2014, totaled \$366,834 and \$3,427,104, respectively.

**Estimates** - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

**Risks and Uncertainties** - The actuarial present value of accumulated Plan benefits is calculated based on certain assumptions pertaining to interest rates, participant demographics and other assumptions, all of which are subject to change. Due to the inherent uncertainty of the assumption process, it is at least reasonably possible that changes in these assumptions in the near term would be material to the disclosure to the financial statements of the actuarial present value of accumulated Plan benefits.

The Plan invests in various investment securities. Such investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty with respect to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

**Recent Accounting Pronouncements** - In May 2015, FASB issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820); Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. The ASU removes the requirement to categorize investments measured at fair value using net asset value (NAV) as a practical expedient within the fair value hierarchy. The Plan adopted the provisions of ASU 2015-07 for the year ended December 31, 2015. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Plan's management has elected to adopt ASU 2015-07 early.

In July 2015, FASB issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, to reduce complexity in employee benefit plan accounting. The Plan adopted the provisions of ASU 2015-12 Part II for the year ended December 31, 2015. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan's management has elected to adopt Part II early.

The primary provisions of Part II that are applicable to the Plan are: (1) Disclosure of individual investments that represent five percent or more of net assets available for benefits is no longer required; (2) The net appreciation or depreciation in investments is presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type; (3) Investments will be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics and risk; and (4) If an investment is measured at net asset value (or its equivalent) and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

**NOTE 2. DESCRIPTION OF THE PLAN**

The following description of the Western Conference of Teamsters Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for complete information.

**General** - The Plan was established pursuant to the Western Conference of Teamsters Pension Agreement and Declaration of Trust dated April 26, 1955, to provide and maintain retirement, death and termination benefits for employees in collective bargaining units represented by local unions affiliated with the Western Conference of Teamsters. The Plan defines the retirement, death and termination benefits to be provided; the conditions of

**NOTE 2. DESCRIPTION OF THE PLAN (CONT'D)**

eligibility for those benefits; the terms of payment; and other necessary or appropriate items. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

**Board of Trustees** - The Plan is administered by a Board of Trustees (the Trustees) composed of 13 union trustees and 13 employer trustees. The Trustees are selected from the various geographic areas served by the Plan.

**Plan Administration** - The Trustees have engaged a third-party administrator to perform administrative and managerial functions for the Plan and to implement the policies of the Trustees. The Trustees have also contracted with the third-party administrator for services relating to the testing of contributing employers' records. The purpose of the testing is to determine that the proper amount of contributions has been remitted to the Plan. The fees for these services are included in the Administrative Offices expense.

**Insurance Company** - The Plan is party to two group annuity contracts with Prudential Insurance Company of America (Prudential): one is a participating annuity contract (GA-8216); the other is an investment-only contract (GA-8217) (see Note 12). Benefit payments and administrative services are provided under both contracts.

**Vesting** - Participants become vested when they have completed (1) five years of service if at least one year of service was after 1990, or (2) ten years of service if all years of service were before 1991. A participant earns a year of service when they work 500 covered hours in a Plan year. Special vesting rules apply to participants working as seasonal employees in the food processing industry, participants over the age of 52 who enter the plan as part of a new group, active participants over the age of 65 and participants working in non-covered employment at a contributing employer. Benefits earned by a non-vested participant may be permanently forfeited under certain circumstances.

**Retirement Benefits** - The Plan's normal retirement benefits are determined using a two-step defined benefit formula.

The first formula is the five-year-average benefit formula. This formula is used to determine an eligible participant's retirement benefits for service before 1987. Under this formula, monthly retirement benefits are based on the length of a participant's service and the rate of employer contributions payable for the participant's last five years of service. Although service after 1986 is not recognized for this formula, employer contribution rates payable on behalf of active participants through the end of 1991 are recognized in determining retirement benefits.

The second formula is the contribution-account benefit formula. This formula is used to determine an eligible participant's retirement benefits for contributory service after 1986 and, if the participant is first covered by the Plan after 1986, for non-contributory service when

**NOTE 2. DESCRIPTION OF THE PLAN (CONT'D)**

applicable. Under this formula, monthly retirement benefits are based on a percentage of total employer contributions payable for all of the participant's non-forfeited service after 1986.

Beginning in 2009, the benefit accrual rates were reduced to 1.20% for all participants, regardless of years of service.

**Early Retirement Benefits** - The three conditions for early retirement benefits eligibility are that a participant:

1. be a vested participant,
2. has reached the earliest retirement date, and
3. has retired from employment.

The Plan allows certain eligible participants to retire early and receive a retirement benefit equal to 100% of the normal retirement benefit. The subsidized early retirement benefits provided under the Plan are subject to payment of increased contribution surcharges under the Program for Enhanced Early Retirement (PEER).

**Disability Retirement Benefits** - To be eligible for disability retirement benefits, a participant must:

1. be vested or an age pensioner,
2. meet the recent coverage requirement,
3. be receiving disability insurance benefits under the Federal Social Security Act,
4. be under age 65 when meeting the first three conditions, and
5. remain continuously disabled from the disability onset date to the date of meeting the first three conditions.

Participants eligible for disability retirement benefits receive a benefit in the amount of the early retirement benefit, if eligible, but no less than 85% of their normal retirement benefit.

**Other Benefits** - Surviving spouses and children are entitled to monthly survivor benefits under certain conditions. Also, beneficiaries of retired and non-retired participants are entitled to death benefits under certain conditions, as determined under the Plan.

**NOTE 3. PRIORITIES UPON TERMINATION**

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan assets to be used for, or diverted to, purposes other than the exclusive benefit of the

**NOTE 3. PRIORITIES UPON TERMINATION (CONT'D)**

pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations. Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

Certain benefits under the Plan are guaranteed by Prudential (see Note 12). In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits, and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of Plan amendments in effect for less than five years. Some benefits may be fully or partially provided, while other benefits may not be provided at all.

**NOTE 4. TAX STATUS**

The Plan obtained its latest determination letter, dated June 30, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Section 401(a) of the Internal Revenue Code and was, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plan has been amended since receiving the determination letter. However, the Trustees and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate the tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Management has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for the fiscal years prior to 2012.

The Plan is invested in certain investment funds that generate unrelated business taxable income (UBTI) and alternative minimum tax (AMT). The Plan is required to file an annual tax return with the Internal Revenue Service and the applicable states and to pay federal and state income tax on the UBTI/AMT. For the years ended December 31, 2015 and 2014, the federal AMT and state UBTI taxes paid were \$3,801,645 and \$490,737, respectively. As of the end of 2015, the Plan had approximately \$72.5 million in UBTI loss carryforwards to be utilized in the future. UBTI loss carryforwards generally can be carried forward up to 20

**NOTE 4. TAX STATUS (CONT'D)**

years. A deferred tax asset relating to the accumulated loss carryforward of approximately \$25.4 million has been recorded, less a 100% valuation allowance. The valuation allowance is based on all available evidence that the deferred tax asset will not be realized due to the uncertain nature of the UBTI being generated on an annual basis. As of the date of this report, the potential tax expense for 2015 is unknown because the investment entities that may generate UBTI/AMT have not yet reported their results for 2015.

**NOTE 5. FUNDING POLICY**

The Trust Agreement provides that the Trustees shall establish and adjust the levels of prospective Plan benefits so that the employer contributions received by the Plan will always meet the minimum funding standards of Section 302 of ERISA and Section 412 of the Internal Revenue Code of 1986. The Trustees have established a funding policy that specifies funding targets that may result in more rapid funding than prescribed by the minimum funding standards and that provides for benefit adjustments based on specified funding targets.

Employer contributions are determined from employment hours reported by participating employers and the contractual employer contribution rates in effect.

The Plan's actuary has advised that the minimum funding requirements of ERISA are being met as of January 1, 2015 and 2014.

**NOTE 6. MAJOR EMPLOYER**

During each of the years ended December 31, 2015 and 2014, approximately 40% of contributions were received from one employer.

**NOTE 7. ACTUARIAL INFORMATION**

The actuarial present value of accumulated Plan benefits as determined by the Plan's actuary as of December 31, 2014, is as follows:

Actuarial present value of accumulated Plan benefits	<u>In Thousands</u>
Vested benefits	
Participants currently receiving payments	\$ 22,789,078
Other participants	15,548,290
Total vested benefits	<u>38,337,368</u>
Non-vested benefits	<u>1,830,243</u>
Total actuarial present value of accumulated Plan benefits	<u>\$ 40,167,611</u>

**NOTE 7. ACTUARIAL INFORMATION (CONT'D)**

The changes in the present value of accumulated Plan benefits for the year ended December 31, 2014, were as follows:

	<u>In Thousands</u>
Actuarial present value of accumulated Plan benefits at beginning of year	<u>\$ 39,116,028</u>
Increase (decrease) during the year attributable to:	
Change in actuarial assumptions	179,389
Benefits accumulated	714,573
Increase due to decrease in discount period	2,623,432
Benefits paid	(2,530,265)
Plan amendment	14,602
Other experience	<u>49,852</u>
Net change	<u>1,051,583</u>
Actuarial present value of accumulated Plan benefits at end of year	<u><u>\$ 40,167,611</u></u>

**NOTE 7. ACTUARIAL INFORMATION (CONT'D)**

The method used in the valuation was the unit-credit actuarial cost method. The significant actuarial assumptions used are as follows:

Assumed rates of return on investments and the rates used to discount liabilities specially backed by dedicated asset investments:

Fixed Dollar Account:	6.50% (2015); 6.70% for 2013 and decreasing gradually to 6.50% in 2015 and thereafter (2014).
82/84 Annuity Account:	5.87% (2015); 6.59% (2014).
Strategic Bond Account:	4.88% (2015); 4.42% (2014).
Assumed rates of return on remaining investments and the rates used to discount remaining liabilities:	7.00%, net of investment expenses.
Expenses:	\$97 million (2015); \$87 million (2014).
Rates of age retirements:	Tables developed from Plan experience based on years of service, eligibility for PEER and other factors.
Rates of employee terminations:	Tables developed from Plan experience based on separate rates for non-seasonal and seasonal employees.
Rates of mortality for retirements:	2015: Tables developed from the RP-2000 mortality tables for men and RP-2014 mortality tables for women and adjustment factors modified to reflect Plan experience. 2014: Tables developed from the RP-2000 mortality tables and adjustment factors modified to reflect Plan experience.
Rates of mortality for disability retirements:	Tables developed from Plan experience.
Survivor benefit cost:	Family composition tables from the 15th Actuarial Valuation published by the Railroad Retirement Board.

**NOTE 7. ACTUARIAL INFORMATION (CONT'D)**

The above actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Pension benefits in excess of the present assets of the Plan are dependent on contributions received under collective bargaining agreements with employers and on income from investments.

Because information on the accumulated Plan benefits at December 31, 2015, and the changes therein for the year then ended are not included above, these financial statements do not purport to present a complete presentation of the financial status of the Plan as of December 31, 2015, and the changes in its financial status for the year then ended, but only present the net assets available for benefits and the changes therein as of and for the year ended December 31, 2015. The complete financial status is presented as of December 31, 2014.

## **NOTE 9. FINANCIAL INSTRUMENTS**

As part of the total investment strategy, and to meet the primary objectives established by the Trustees, several of the Plan's investment managers utilize derivative financial instruments. Risks associated with derivatives vary widely, but generally may be categorized as market risk, credit risk and interest rate risk. Market risk is defined as that risk associated with fluctuations in market price. Credit risk is defined as that risk associated with an entity not paying. Interest rate risk is defined as risk associated with changes in general interest rates or yield curves that could adversely affect the fair value of an investment.

Some of the Plan's investment managers enter into options, warrants and rights, futures, swaps and forward currency exchange contracts. The Plan uses futures, options and swaps for hedging purposes and not on a speculative basis, but the use of these instruments would be considered trading securities for purposes of reporting. The Plan uses futures, swaps and forwards for bona-fide hedging purposes and to manage duration, yield curve, convexity, spread risk and credit risk with portfolios.

In addition, investment managers utilize currency forward transactions to protect or partially protect against fluctuations in exchange rates between countries when purchasing non-dollar issues for the portfolio. These instruments are helpful in eliminating volatility that may be experienced by the portfolio due to changes in exchange rates. By purchasing or selling the proper amount of these instruments, the investment manager is able to capture the underlying value of the foreign security without taking on the additional risk of currency.

An option is a contract that grants the right, but not the obligation, to exercise a specific purchase or sales transaction at a stated exercise price. Warrants and rights are investment instruments similar to options. A futures contract is a standardized agreement between two parties to buy and sell an asset at a set price on a future date. The Plan enters into financial futures contracts solely for the purpose of hedging its existing portfolio securities, or securities the Plan intends to purchase, against fluctuations in fair value caused by changes in prevailing interest rates or as substitutes for cash securities permitted under the relative account guidelines. Upon entering into a financial futures contract, the Plan is required to pledge to the broker an amount in cash, United States government securities or other assets equal to a certain percentage of the contract amounts (initial margin deposit).

Subsequent payments, known as "variation margin," are made or received by the Plan each day, depending on the daily fluctuations in the fair value of the underlying security. The Plan recognizes an unrealized gain or loss equal to the daily variation margin. Should market conditions move unexpectedly, the Plan may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. When the contract is closed, the Plan recognizes a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts, interest rates and the underlying hedged assets. The variation

**NOTE 9. FINANCIAL INSTRUMENTS (CONT'D)**

margin receivable/payable is included in accrued investment income on the statements of net assets available for benefits.

Credit default swaps (CDS) entered into by the Plan typically represent the exchange by a counterparty with the Plan of a commitment to provide credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. Receiving credit protection from a counterparty tends to decrease the Plan's exposure to the underlying instrument held by the Plan. Such contracts may have a term of one to seven years, but typically require periodic interim settlement in cash. Credit default swaps are marked to market daily based on prices obtained from independent broker/dealers, and changes in value, as well as the accrual of the periodic coupon income, are recorded as unrealized appreciation or depreciation. Gains and losses on CDS agreements are realized upon termination of the swap contract and the periodic payments.

A credit default swap index (CDX) is a credit derivative used to hedge credit risk or to take a position on a group of credit entities. A CDX may be more liquid and trade at a smaller bid-offer spread. This means that it can be cheaper to hedge a portfolio of credit default swaps or bonds with a CDS index than it would be to buy many CDS to achieve a similar effect. Credit default swap indexes are benchmarks for protecting the Plan's investments in bonds against default.

The Plan has entered into interest rate swap agreements. Through such transactions, the parties agree to pay, on specific dates, either a fixed or floating rate of interest on the contract amount. Risks in these transactions involve both the risk of counterparty nonperformance under the terms of the contract and the risk associated with changes in the market value of the swaps.

The Plan has also entered into foreign currency forward contracts to protect its investments in foreign securities from price declines caused by changes in currency exchange rates. A foreign currency forward contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the value of the original contracts and the value upon closing such contracts is included in net realized gain or loss on foreign currency transactions. Fluctuations in the value of open foreign currency forward contracts are recorded as unrealized gains and losses.

The Plan may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Plan sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which the short sale was made. A gain, limited to the price at which the Plan sold the security short, or a loss, unlimited in size, will be recognized upon termination of the short sale.

The accompanying financial statements reflect these unrealized gains and losses, not the gross value or notional amount of the underlying securities. At December 31, 2015 and 2014, approximately \$17,478,000 and \$20,046,000, respectively, had been pledged against the futures contracts to cover the initial margin and collateral requirements.

**NOTE 10. SECURITIES LENDING**

The Trustees authorized the Plan to enter into securities lending agreements with a custodial bank and Prudential (the Lending Agents) to lend securities to third parties. The Lending Agents must obtain collateral from the borrowers in the form of cash or securities issued or guaranteed by the United States Government or its agencies equal to at least 102% (105% for foreign loans) of the market value of the loaned securities plus accrued income. The market value of the collateral is marked to market daily. Except as noted below, if the market value of the collateral is less than the minimum percentage (100%), the Lending Agents require that additional collateral be delivered the following day to meet the required percentage of the market value of the loaned securities, plus accrued interest. During the time the securities are on loan, the Plan will continue to receive the interest and dividends, or amounts equivalent thereto, on the loaned securities. The right to terminate the loan is given to both the lenders and the borrowers, subject to appropriate notice. Upon termination of the loan, the borrowers will return to the lenders securities identical to the loaned securities and the collateral held by lenders will be returned to the borrowers.

The fair value of the securities on loan is as follows:

	<u>December 31,</u>	
	<u>2015</u>	<u>2014</u>
Securities on loan, at fair value		
Custodial bank	\$ 540,323,410	\$ 527,488,107
Prudential	<u>1,893,313,564</u>	<u>1,940,497,405</u>
Total securities on loan	<u>\$ 2,433,636,974</u>	<u>\$ 2,467,985,512</u>

The Lending Agents are authorized to invest and reinvest any and all cash collateral. Cash collateral may be invested or reinvested in accordance with the investment guidelines set forth in the securities lending agreements. Prudential invested a portion of the cash collateral in the Prudential Core Investment Fund - Short-Term Bond Series Account (Prudential Bond Account), an approved vehicle for reinvested cash collateral. The custodial bank reinvested the cash collateral in a pool of approved securities.

**NOTE 10. SECURITIES LENDING (CONT'D)**

The liability to return securities lending collateral, unrealized gains (losses) and fair value of collateral are as follows:

<u>As of December 31, 2015</u>	<u>Liability to Return Collateral</u>	<u>Unrealized Gains (Losses)</u>	<u>Fair Value of Collateral</u>
Collateral for securities on loan			
Custodial bank	\$ 552,446,613	\$ (125,684)	\$ 552,320,929

Total	<u>\$ 2,488,327,032</u>	<u>\$ (111,896,590)</u>	<u>\$ 2,376,430,442</u>

<u>As of December 31, 2014</u>	<u>Liability to Return Collateral</u>	<u>Unrealized Gains (Losses)</u>	<u>Fair Value of Collateral</u>
Collateral for securities on loan			
Custodial bank	\$ 539,091,513	\$ (30,514)	\$ 539,060,999
Prudential Bond Account	1,984,402,958	(98,253,490)	1,886,149,468
Total	<u>\$ 2,523,494,471</u>	<u>\$ (98,284,004)</u>	<u>\$ 2,425,210,467</u>

As shown on the statements of changes in net assets available for benefits, the unrealized gains/(losses) on the reinvested collateral for the years ended December 31, 2015 and 2014, totaled \$(13,612,586) and \$5,601,469, respectively.

Although the Plan's securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowers of securities will be unable to collateralize their loan upon a sudden material change in the fair value of the loaned securities or collateral. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts. To minimize risk, the Plan restricts counterparties to the highest quality firms. If a loan of securities is terminated and such securities are returned, the Plan could sustain realized losses on the collateral if it were necessary to liquidate collateral invested in the Prudential Bond Account.

The Plan earned securities lending income (net of fees) totaling approximately \$22,268,000 and \$17,325,000, respectively, for the years ended December 31, 2015 and 2014. These amounts are included in investment income on the statements of changes in net assets available for benefits.

**NOTE 11. INVESTMENTS IN CERTAIN ENTITIES THAT CALCULATE NET ASSET VALUE**

The Plan utilizes net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The fair value of the following investments was measured using NAV (or its equivalent).

In addition to the remaining commitments identified above, the Plan has an unfunded commitment to the Western Conference of Teamsters Separate Account (WCOT) real estate holding of \$290,600,000 and \$296,400,000 as of December 31, 2015 and 2014, respectively.

{a} These investments are direct filing entities with the Department of Labor; therefore, information regarding the investments' strategy is not disclosed.

**NOTE 11. INVESTMENTS IN CERTAIN ENTITIES THAT CALCULATE NET ASSET VALUE (CONT'D)**

- {b} This class includes investments in common/collective trusts that invest in domestic equities, international equities, commodities and fixed-income securities. The investment managers adopt a strategy in order to track or exceed the following indices: Barclays Capital U.S. Treasury Bellwethers 3-Month Index, Dow Jones-UBS Commodity Index, S&P 500 Index, Dow Jones U.S. Completion Total Stock Market Index, MSCI All Country World Index ex-U.S., and MSCI EAFE Index.
- {c} This class of investments consists of limited partnerships that invest in various types of fixed-income securities directly or indirectly through other limited partnerships. The strategies used by the limited partnerships include investments in mezzanine securities, first-lien senior-secured debt, investments in distressed debt, bank loans and distressed residential real estate loans.
- {d} This class of investments consists of three limited partnerships that invest in domestic and international infrastructure-related projects. These investments seek to provide superior returns through various domestic and international infrastructure projects, such as wind farms, wastewater plants, airports and electrical distribution.
- {e} This class of investments consists of limited partnerships that are considered private equity investments. The managers in this class utilize various investment strategies in order to achieve superior returns and capital appreciation. Investments may be made directly by the limited partnership or indirectly through a fund-of-funds investment structure. Strategies utilized by these managers include activist investments, investments in middle-market business, investments in transportation-related companies, and domestic and international equity and equity-related investments.
- {f} This investment class consists of limited partnerships that invest in real assets, including oil and gas-focused investments and commodities. The oil and gas investments include U.S. and international privately negotiated equity and equity-related investments, and investments in known energy-producing, on-shore regions of North America. These investments seek to provide a diverse portfolio of energy and energy-related infrastructure investments. The commodity-focused investment seeks to outperform a simple average of the following four major commodities indices: S&P Goldman Sachs Commodity Total Return Index, DJ UBS Commodity Total Return Index, Reuters/Jefferies Commodity Research Bureau's Total Return Index and Rogers International Commodity Total Return Index.
- {g} This class of investments includes limited liability companies and other private equity funds that focus on fixed-income investments. These funds make direct or indirect investments that seek to generate current income and capital appreciation while minimizing the risk of loss of principal through lending to middle-market companies, commercial lending and high-yield structured finance securities.

**NOTE 11. INVESTMENTS IN CERTAIN ENTITIES THAT CALCULATE NET ASSET VALUE  
(CONT'D)**

- {h} This investment class represents limited liability companies and other private equity investments that focus on real estate ventures, venture capital and corporate finance transactions. The strategy of the real estate venture fund is to acquire, own and manage residential rental real estate, primarily single-family homes, in various major markets in the U.S. The venture capital investments generate capital returns by making direct equity-oriented investments in venture capital companies or investing in limited partnerships that make equity-oriented investments in venture capital companies. These investments can include early-stage investments in businesses still in the conceptual stage, businesses where products may not be fully developed and revenues and/or profits may be several years away, and later-stage venture capital investments in need of additional growth capital. The corporate finance investment seeks to generate capital returns through investing directly or indirectly in management buy-in, management buy-out and leveraged buy-out transactions.
- {i} This class of investments includes two limited liability companies that directly own timber-producing real estate and related assets, or real estate devoted to agricultural use. A request for a partial withdrawal from the timber-related investment may be made at any time, and the investment manager will sell such investments allocated to the Plan's account, as it determines it necessary, to obtain funds for each partial withdrawal.
- {j} The pooled separate accounts maintained by Prudential include holdings in debt securities, mortgage securities and real estate investments. The debt security investment strategy seeks to achieve long-term total return greater than public bond portfolios of comparable credit quality and duration by primarily investing in privately placed corporate debt securities. The mortgage portfolio invests in mortgages on properties constructed with union labor with fixed maturity dates. The real estate accounts invest in diversified equity real estate investments in income-producing properties with potential for capital appreciation, office buildings, retail, hotel and self-storage properties. The real estate accounts target returns similar to the NFI-ODCE Index. The pooled separate account maintained by Union Labor Life Insurance Company include mortgage securities. The mortgage portfolio invests in mortgages on properties constructed with union labor. The portfolio is benchmarked against the Barclays Capital Aggregate Index (the Index). Target returns may vary since the Index include securities that are SEC registered or unregistered while the portfolio holdings are not publicly traded and the holdings, characteristics and volatility may differ.

**NOTE 12. NET ASSETS AVAILABLE FOR BENEFITS**

The Plan allocates net assets available for benefits between Retired and Survivor Guaranteed Annuities and certain Non-Guaranteed Benefits for Retirees and Survivors and Future Retirees and Survivors. Effective January 1, 1998, the Plan entered into two insurance company group annuity contracts with Prudential, which superseded the group annuity contract in effect since 1955. Under one contract, Prudential guarantees retirement benefits to a closed group of annuitants and their beneficiaries (Retired and Survivor Guaranteed Annuities). The initial contribution to this contract was \$7.46 billion, representing an amount equal to 105% of the Contract Liability Amount as of the effective date of the contract. This contract will remain in full force and effect until such date that there are no further annuities or other guaranteed payments payable under the contract. The contract will terminate at that time, and the remaining assets held under the contract, if any, less any expenses or other fees, will be transferred back to the general Plan assets. Non-Guaranteed Benefits are covered by the remaining Plan assets, including a second contract that consists of separate investment accounts that are managed by Prudential. The net assets available for benefits allocated between the Retired and Survivor Guaranteed Annuities and Non-Guaranteed Benefits for Retirees and Survivors and Future Retirees and Survivors are summarized as follows:

	<u>December 31,</u>	
	<u>2015</u>	<u>2014</u>

**NOTE 13. EMPLOYER WITHDRAWAL LIABILITY**

The Plan complies with the provisions of the Multiemployer Pension Plan Amendment Act of 1980 (MPPAA), which requires imposition of withdrawal liability on a contributing employer that partially or totally withdraws from the Plan. Under the provisions of MPPAA, a portion of the Plan's unfunded vested liability would be allocated to a withdrawing employer. The Plan's actuary has advised the Plan that, as of December 31, 2014, the Plan has an estimated unfunded vested liability of \$4.053 billion for withdrawal liability purposes.

For the years ended December 31, 2015 and 2014, employers who have withdrawn from the Plan have been assessed a withdrawal liability of approximately \$31,800,000 and \$11,800,000, respectively. Due to the poor financial condition of some withdrawing employers, it is likely that the withdrawn employers assessed withdrawal liability will file for bankruptcy, become insolvent, or otherwise default on their withdrawal liability payment obligations. Generally accepted accounting principles state that the amounts assessed against

**NOTE 13. EMPLOYER WITHDRAWAL LIABILITY (CONT'D)**

employers withdrawing from the Plan may be recorded as a receivable, net of an allowance for uncollectible amounts. The Trustees of the Plan are concerned that, even with their best efforts at estimating an allowance for uncollectibility, the amount of withdrawal liability that will actually be received may vary significantly. In accordance with the Plan's accounting policy, the Plan has recorded a receivable of \$37,000,000 and \$18,000,000, as of December 31, 2015 and 2014, respectively. During the years ended December 31, 2015 and 2014, the Plan recorded approximately \$56,000,000 and \$36,100,000 in withdrawal liability revenue.

## **ADDITIONAL INFORMATION**

**INDEPENDENT AUDITORS' REPORT ON ADDITIONAL INFORMATION**

To the Participants and Trustees of  
Western Conference of Teamsters Pension Plan

We have audited the financial statements of Western Conference of Teamsters Pension Plan (the Plan) for the years ended December 31, 2015 and 2014, and have issued our report thereon dated September 8, 2016, which contained an unmodified opinion on those financial statements. Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying information included on page 35, Schedule G - Financial Transaction Schedules (IRS Form 5500) and Schedule H - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is additional information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.
